GENERAL INDEX,	at the end of book.

Merck's and other foreign chemicals have the bottle or container, whatever it may be, included in the quotation.

NEW YORK, August, 1887.

We again have the pleasure of presenting to our numerous friends and correspondents our General Prices Current, revised and corrected to date, with the addition of many new articles and remedies, the result of the progress of Chemical and Pharmaceutical Science. The constant changes in market value of many articles demand a frequent revision and republication of rates, and it will be understood that the prices quoted are subject to changes in the market, and not to be considered binding in case of change in value, or if our stock of any article has become exhausted prior to the receipt of an order. In many articles the prices, necessarily, are approximate only; but we have endeavored, as near as possible, to affix correct rates, while at the same time our customers will have the benefit of any decline in prices, and proper allowance for goods ordered in large quantities and original packages.

* * *

DRUGGISTS' SUNDRIES AND FANCY GOODS.—We call special attention to this department, which embraces a complete stock of Druggists' Sundries, Fancy Goods, Surgical Instruments, Perfumery, Toilet Articles, etc., etc. **SPONGES.—A large variety of all grades for Bath, Carriage, Toilet, Potters, Surgeons and School Use.** Our great experience in this class of goods, combined with our connections in the best centres of supply, justify us, we think, in asserting that buyers will do well to examine our prices and stock before purchasing elsewhere. See Descriptive Lists commencing on page 277.

* * *

MANUFACTURING DEPARTMENT.—We are constantly enlarging our facilities in this important branch. The products of our Laboratory will be found enumerated and quoted on pages 115 to 156 They are daily increasing in demand, evincing that real meritorious products are appreciated by discriminating buyers and consumers.

* * *

POWDERED DRUGS.—Medicines of this class, the PURITY of which is of such VITAL IMPORTANCE in their application as remedies, are all done at our own Laboratory, where the most improved mills and chasers are used; and we guarantee all our powders as strictly pure and reliable. For a select list of these, put up In 1-lb. and 5-lb. cans, see Manufacturing Department, pages 146, 147.

* * *

BOXES AND CARTAGES.—Since February, 1884, we have discontinued charging for packing boxes and cartages on MISCELLANEOUS INVOICES, but this rule does not apply to 25-lb. and 50-lb. powder boxes, cans, kegs, half-barrels, barrels, nor to the containers of single items, that are uniformly charged for by the trade and by manufacturers; nor to goods sold through brokers.

* * *

TERMS CASH, IN FUNDS CURRENT IN NEW YORK.—The experience of all persons engaged in business during the past fifteen to twenty years has satisfied them of the evils of a return to the former system of long credits, and we shall therefore continue to confine our sales to a cash basis, as for some years past. We may, however, say in this connection, that, as in the past, so in the future, we will be pleased to extend any reasonable facilities to our friends when occasion requires. Parties with whom we have had no previous business relations and with whom we have not the pleasure of a personal acquaintance, will facilitate the execution of their orders by accompanying them with drafts to cover approximate amounts of the same, or with references.

* * *

We avail ourselves of the present opportunity to call special attention to the importance of knowing the quality of the goods dealt in. Every year affords evidences of the ingenuity and industry of those who are so anxious to make money and so desirous of meeting the demand for *low prices*, that they are induced to buy and sell adulterated goods and goods of an inferior quality, regardless of the want of morality involved in such a course, and of the suffering and risk attending the sale and dispensing of such goods. Of course those who entrust the execution of their orders to parties whose only criterion is the *price*, can have no guarantee of the *quality* of the articles bought.

In conclusion, parties who may favor us with their orders, whether for large or small quantities, may be assured of our best terms, and of prompt attention. Special quotations will be given with pleasure.

W. H. Schieffelin & Co.

This House was established in 1794. The four generations who have successively conducted the business have had as their guiding purpose, not merely the traffic in drugs and medicines, but the elevation of the standards of quality and the maintenance of correct business principles.

Purity is of such vital importance in the application of drugs and medicines by the medical profession, that the utmost care and vigilance are required in their selection and production.

W H. Schieffelin & Co. are heartily in sympathy with all efforts which may improve the quality of medicines, and shall continue, as heretofore, to exclude all low grade and inferior articles, and to use their influence in promoting the sale and use of pure drugs and medical preparations.

Blackberry, quart champ. bots .....doz.	6 50	
Catawba, " " " .....doz.	6 50	
Pine-apple, " " " .....doz.	6 50	

JUICES, FRUIT, Pure, W. H. Schieffelin & Co.'s.—*Continued.*

Raspberry, " " "	doz.	6 50	
Strawberry, " " "	doz.	6 50	
Red Currant, " " "	doz.	6 50	
Black Currant," " "	doz.	6 50	

These Juices are equal, if not superior, in quality, to the best imported. They are simply the pure undiluted juices of the fruit; their flavor is incomparably superior to those which are artificially prepared, and they are also free from the objectionable and dangerous chemicals which such contain. They retain the delicate flavor of the fresh fruit, and if tightly corked will keep perfectly in all climates.

CONCENTRATED MEDICINES;

OR

Active Principles of Medicinal Plants.

The list embraces many preparations from Crude materials of recognized officinal medicinal value. Others, though comparatively new to the profession, are fast gaining confidence in their remedial powers.

Each preparation represents the full therapeutic virtues of the crude substance from which it is derived.

They are *definite* in constitution and therapeutic power, *uniform* in medicinal strength, *reliable* in clinical practice, and *not liable* to vary, change, or deteriorate by age.

They are put up in bottles of one ounce avoirdupois, and securely sealed to protect them from the action of the atmosphere.

Subject to a discount of 30 %, excepting Podophyllin and Leptandrin, which are net.

GARDNER'S CHEMICALLY PURE

HYPOPHOSPHITE PREPARATIONS.

The experience of the past twelve years in the use of these preparations of chemically pure Hypophosphites by the medical profession has fully vindicated the statement made by the writer in 1874, when they were first introduced, and at that time strongly urged upon their critical attention, viz.: That "unless the Physician has used *chemically pure Hypophosphites*, he has not properly tested their effects." The marked superiority of pure over impure salts in therapeutic action has been recognized and appreciated by the medical profession, and, as usual, preparations purporting to be similar have been extensively advertised. These are generally compounds, in the use of which the Physician is left no discretion of judgment in the selection of the salts best adapted to the condition of his patient.

Gardner's Unalterable Syrup of Hydriodic Acid.

This Syrup has been remarkably useful in *Asthma*, *Chronic Bronchitis*, and *Hay Fever*. (See papers by J. P. Oliver, M.D., Boston, "Med. and Surg. Journal," March 4, 1880, and by W. Gill Wylie, M.D., New York, "Medical Record," May 10, 1879.) While it has been found specially useful in these diseases it is applicable to all that large class of affections where the assimilation of Iodine is indicated, as in chronic and subacute catarrhal affections, Goitre, Adipose Tumors, Syphilis, chronic Malarial Poisoning, etc. For highly favorable results in Acute Rheumatism, see N. Y. Medical Record, April 21st, 1883, p. 448.

NOTE.—Physicians desiring to prescribe this preparation will please specify "Gardner's," as imitations of it have been used in a decomposed state with serious results, disappointing the anticipations of the Physician, and creating undeserved prejudice against this remedy.

List of Gardner's Special Pharmaceutical Preparations.

VARNISHES.

"STANDARD" FINISHING VARNISHES, FOR COACHES AND CARS.

WEARING BODY VARNISH..... For finishing the Bodies of Coaches and Cars; of our make, we claim to be superior in durability, lustre, flowing and color, in all respects equal, and in some superior, to the best imported. Sets in six hours free from dust, and dries hard in three days.	gall.	4 50
MEDIUM BODY VARNISH..... For finishing the Bodies of Coaches and Cars; of our make, similar to our wearing body in all respects, except drying hard quicker.	"	4 50
HARD DRYING BODY VARNISH..... For under coats on Superior Work; of our make, like all our finishing varnishes, made of the very best Zanzibar gum. Dries very hard, and can be rubbed in from four to five days without sweating.	"	3 75
PALE CARRIAGE VARNISH..... For finishing the Wheels and Underparts of Carriages; of our make, flows and works freely. Possesses uniformity, fullness and brilliant lustre. Sets quickly, and dries hard in twenty-four hours.	"	3 75
IMPERIAL COACH BODY VARNISH..... For finishing the Bodies of Coaches; a superior durable finishing varnish, pale in color, flows freely, of good durability and brilliancy. A safe varnish to use in all weather. Sets in eight hours, and dries hard in twenty-four hours.	"	3 37½
ELASTIC GEARING..... For finishing the Wheels and Underparts of Carriages; very elastic, good body, light color, and durable. Sets quickly, and dries hard in twenty-four hours.	"	3 37½
ONE COAT COACH..... For finishing Coats; pale, hard drying, heavy body, and brilliant. Made specially for work where only one coat of heavy bodied varnish is required.	"	3 00
RUBBING BODY..... For Under Coats; made for superior work, very light in color, dries hard over night, and can be rubbed in three days without sweating.	"	3 37½
QUICK RUBBING, EXTRA PALE..... For Under Coats; made of superior material, pale color, dries hard quickly, and can be rubbed in two days, without sweating.	"	3 00
QUICK RUBBING, No. 1..... For Under Coats; made of very hard gum, dries hard quickly, and can be rubbed in two days, without sweating.	"	2 62½
BLACK RUBBING..... For Carriage Parts and Under Coats; made mostly for black work on carriages. Is used chiefly on work requiring despatch, where time cannot be given for coats of black and rubbing varnish. It flows well and dries hard, with an intense black lustre. Can be rubbed in two days, without sweating.	"	3 00

Our Finishing" Varnishes are put up in quart, half gallon, and gallon panel cans, with nozzles, without extra charge.

"MISCELLANEOUS" VARNISHES.

OUTSIDE VARNISHES.		
DURABLE COACH, EXTRA LIGHT..... A good flowing, brilliant varnish, adapted for coach and wagon work; sets in five hours, and dries hard over night.	gall.	2 80
COACH BODY, PALE..... For Coach and Wagon Work, and largely used for Agricultural Implements; good working qualities and lustre. Dries hard over night.	"	2 45

For Half-gallon cans we charge 10c. per gallon NET, MORE than for Gallon cans.
For Quart cans " 15c. " " " " " "

In full Barrels of 40 to 50 gallons each, we charge 10c. per gallon LESS than for Gallon cans.

Smaller packages in bulk than 40-gallon Barrels will be the SAME PRICE as when ordered in GALLON CANS.

☞ Special shades of any desired tint will be furnished from samples when quantities are wanted.

PRICE LIST FOR TINTED PAINTS GROUND IN OIL.

FOR ALL ORDINARY TINTS. { In 100 lb. Kegs, . . 5¾c. per lb. net.
In 25 lb. Tin Pails, . . 6¼c. " "

NO OTHER SIZE OF PACKAGES FURNISHED EXCEPT BARRELS.

RULE *for ascertaining the quantity of paint required to cover a desired surface :*

To the number of feet in width (front and rear) add the number of feet in length (both sides). Multiply this by the average height, and the product will be the number of square feet to be painted.

This divided by 200—as one gallon of paint covers 200 square feet, TWO COATS—gives the quantity required in gallons.

EXAMPLE:

Say Front	20	feet.
Rear	20	"
Side	30	"
Side	30	"
	100	
Multiply Height,	20	
	200) 2,000	
Two coats.	10	*gals.*

This rule is sufficiently correct for all practical purposes; but as the quantity required will be somewhat varied by the condition of the surface to be painted, whether smooth and hard, or rough and porous, it will not in all instances be found EXACT.

WITH DISCOUNT TO THE TRADE.

These are Pure Linseed Oil Paints. Average weight, more than 15 lbs. per gallon.

DAVID B. CROCKETT'S

David B. Crockett

SPAR COMPOSITION

THIS is the genuine **DAVID B. CROCKETT SPAR COMPOSITION.**—The most perfect protection against the weather ever invented. Invaluable for Front Doors, Vestibules, Porches, Casements and all exposed parts of edifices, whether of wood or iron. For Spars, Decks, and all exterior parts of yachts, or other vessels; for Railway Cars, Carriages, Wagons, Agricultural Implements, and anything needing protection from the weather, it is indispensable. It is a Tough, Elastic Coating on wood or iron exposed to the extremes of weather, as it will wear longer than the best English Varnish, and it is positively Water-Proof. Like the PRESERVATIVES, this is equally adapted for use over exterior grained or painted work—they all finish with a high and permanent gloss, and are not affected by extremes of temperature

It is superior to anything of the kind ever invented, and also adds a gloss and finish unsurpassed by the finest Varnishes.

DIRECTIONS FOR USE.—On front doors, vestibules, window casings, and all exterior work, clean well, and give a coat of No. 1 Preservative, rub down with excelsior or curled hair, and finish with ***Crockett's Spar Composition.*** When the outside work is in good condition, one coat of the ***Spar Composition*** is sufficient. Spar Composition should not be used on inside work.

DAVID B. CROCKETT'S

No. 1 PRESERVATIVE

OR

ARCHITECTURAL WOOD FINISH.

A Transparent Coating for Finishing and Preserving Hard Woods, Public Buildings, Churches, Hospitals, Steamships, Yachts, Private Dwellings, Floors, etc.

The best material ever devised for the interior ***Preservation*** of wood, making it practically indestructible, by rendering it impervious to moisture. It also develops its natural beauty, bringing out the grain and forming a hard, brilliant surface superior to the best English Varnish. It is especially suitable for ***Bath Rooms, Sinks, Floors,*** and all places requiring frequent cleansing, for, unlike Varnish, it is in nowise injured or its lustre impaired by repeated washings, and by filling the pores of the wood it ***excludes the germs of Disease and prevents Contagion.*** These qualities make it indispensable for Hospitals, Asylums and all institutions of similar character.

FOR INTERIOR USE.

DIRECTIONS FOR USE.—ON NEW WOOD—Apply a good coat, well brushed in, of No. 1 "Preservative," and on the following day rub down with curled hair or material of its kind. Then give one or more coats as the wood may require, at intervals of 24 hours. hould you wish a high gloss finish, give a last coat of No. 2 "Preservative." For a dull finish, let the work stand 24 hours, and rub down with fine pumice stone and water. (Same as a fine rubbing Varnish.)

ON OLD WORK, either grained or hard wood, clean well, and apply brush coat of No. 1 Preservative.

PRICES:

No. 1 Preservative.		Spar Composition and No. 2 Preservative.	
1 Gallon Cans and upwards.....per gall.	$2 50	1 Gallon Cans and upwards.....per gall.	$4 00
½ " " .....each,	1 35	½ " " .....each,	2 10
1 Quart " "	70	1 Quart " "	1 10
1 Pint " "	40	1 Pint " "	60

These Prices shall be ***net cash to Consumers*** for any quantity less than 5 gallons.

PACKED AS FOLLOWS:

1, 2, ½, ¼, and ⅛ gallon cans in cases containing 12 gallons. 5 gallon cans in cases containing 10 gallons.

DISCOUNTS:

In quantities of 50 gallons in one barrel, or in ten 5 gallon cans, the discount may be ***25 per cent.*** (Note! This will ***not,*** in any event, apply to 1 gallon cans.)

In quantities of one case or over, at one time, a discount of ***20 per cent.***

In quantities of 5 gallons to one case, at one time, a discount of ***10 per cent.***

Dealers who buy in less quantities than one case, in good faith, to sell again, may receive a discount not exceeding ***15 per cent.***

W. H. Schieffelin & Co.'s

Chemical and Pharmaceutical Preparations.

Office and Warehouse: 170 & 172 WILLIAM STREET.

Factory: 400 & 402 FRONT STREET.

NEW YORK.

We are constantly enlarging our facilities in our Laboratory Department, which is under our personal supervision. We employ skilled analytical and manufacturing chemists and have so thoroughly systematized the business that none but standard goods can be sent out.

In accordance with our established policy we shall, as in the past, use our best endeavors to furnish only such preparations as shall meet pharmacopœial requirements.

We are heartily in sympathy with all efforts which aim to improve the quality of medicines, and shall continue as heretofore to exclude all low grade and inferior articles, and to use our influence to promote the sale of pure drugs and medical preparations.

We call special attention to our Cocaine and preparations, Concentrated Nitrous Ether, Purified Salts, Iron Preparations. Sulphate and Bisulphate Quinine, Oleates, Pepsin, Fluid, Solid and Powdered Extracts, and Powdered Drugs, in one-pound and five-pound cans.

Our Soluble Pills and Granules, now so well known throughout our own and other countries, have received the highest awards at all the more important International and other Exhibitions for years past, the latest being the World's Exposition, New Orleans, La.

We solicit correspondence in this important branch of our business with those who are interested in the selection of preparations which are above reproach.

We ask special attention to this article and its preparations made in our own laboratory. We scarcely need to assure our friends that the quality of these preparations is the best.

Our **Cocaine** is in Small Crystalline form and is not amorphous. The advantages of this form over the hydrated silky crystals is obvious when it is understood that the latter form contains a large percentage of water of crystallization

In order, therefore, to secure the full effect of a given quantity of Cocaine the Smaller Crystalline form should always be employed.

Crayons of Pure Menthol, Williams'	doz.	1 75

We beg leave to call the attention of the better class of pharmacists to these Crayons, which are Pure Menthol, and are adapted to the relief of Nervous and Neuralgic pains, etc. An examination by us of the various pencils or crayons on the market disclosed the fact that many of them were adulterated to a greater or less degree with Paraffin, Salicin etc., and our customers have complained of the unsatisfactory character of such. This has induced us to prepare and offer these Crayons as an article upon which entire reliance can be placed. If, therefore, you wish to give satisfaction to your customer, they should find a place in your stock.

Put up in neat boxes of 1 dozen each for counter display.

ELIXIRS, W. H. SCHIEFFELIN & CO.'S.

The desire to disguise the bitter or nauseous taste of various valuable medicines without diminishing their medicinal activity, has led to the manufacture and use of elixirs. We have endeavored to make these preparations as palatable as is possible without sacrificing the quality or quantity of the active ingredients. We use the best and purest materials only, and guarantee that these elixirs are as represented.

Rhubarb and Magnesia One tablespoonful represents twenty-four grains of Rhubarb and fifteen grains of Calcined Magnesia (as Acetate of Magnesia)	10 00	1 50	3 50	5 00
Sumbul Compound Contains ten per cent. Fl. Ext. Sumbul, and fifty per cent. Elixir Valerianate Ammonia.	12 00	1 80	4 20	6 00
Taraxacum Compound One tablespoonful represents six grains of Dandelion, twelve grains of Wild Cherry, and one and one-half grains each of Gentian and Liquorice.	8 00	1 20	2 80	4 00
Valerianate of Ammonia One teaspoonful contains two grains of Valerianate of Ammonium.	9 00	1 35	3 15	4 50
Valerianate of Ammonia and Quinia One teaspoonful contains two grains of Valerianate of Ammonium, and one grain of Quinine.	11 00	1 65	3 85	5 50

Elixirs of Chemically Pure Hypophosphites (Gardner's).

Instances are common where Syrup is not acceptable to the stomach, owing to excessive sweetness, Spirit is in most cases an important adjuvant to the hypophosphites, and co-indicated with them, assisting their tonic action, and correcting the cloying effect of sugar on the palate, while preventing the formation of mould and arresting fermentive decomposition in preparations containing it. It is therefore desirable to administer these salts combined with a small but sufficient proportion of spirit to effect the above objects.

These Elixirs combine the above advantages, and have been found uniformly acceptable in cases where the Syrup has been rejected.

Special attention is called to the fact that Chemically Pure Salts are prepared expressly for these Elixirs.

ETHER, NITROUS, CONCENTRATED.

For extemporaneous preparation of Spirits Nitrous Ether, U. S. P.

1 lb. bots., $1 75 per lb.; ½ lbs., $1 85 per lb.; ¼ lbs., $2 00 per lb.

This preparation contains 90% of real Ethyl Nitrite, and produces Spirit Nitrous Ether of the strength required by the U. S. P., 1880, viz.: "At least 4% of real Ethyl Nitrite." We were the first to place this article on the market. It is used now in all parts of the country, and the great number of orders we receive confirm its merit and utility.

FOR SPIRITS NITROUS ETHER, U. S. P., 1880.

℞ Conc. Nitrous Ether, W. H. S. & Co..... 1 lb.
Alcohol, "95%"..... 19 lbs.
Mix.

The product is 20 pounds of Spirits Nitrous Ether of the strength required by the U. S. Pharmacopœia, 1880, viz.: "At least 4% of real Ethyl Nitrite."

The following are some advantages gained by buying this article.

1. A considerable saving in cost of freight and packages.

2. The druggist can say from his own knowledge that he is dispensing exactly the article prescribed.

3. Sweet Spirits of Nitre may be prepared frequently in small quantity, and thus be fresh when dispensed.

4. The druggist can prepare his own spirits at the same cost as he can buy the spirits by the carboy.

Sample sufficient to make 20 ounces Sweet Spirit Nitre furnished free on application.

EXTRACTS, Flavoring, W. H. Schieffelin & Co.'s.

We beg to call particular attention to the following Natural Flavoring Extracts, which have elicited the highest commendations from parties who have used and sold them, viz.:

SOLUBLE EXTRACT JAMAICA GINGER.

Per pint, 75 cents. Per 5 pint bottle, $3.50. Per gallon, $5.00.

Made from true Jamaica Ginger, and entirely free from Capsicum or any other foreign flavor. Each pint represents the water-soluble constituents of eight ounces of ground ginger. It forms a clear mixture with water or syrup in all proportions.

It is particularly desirable for preparing Syrup Ginger, Ginger Ale, Ginger Pop, Root Beer, and in the various requirements of the kitchen where Ginger is needed.

Formula for Syrup of Ginger for Soda Water.—1½ to 2 fl. oz. Soluble Extract to each pint of simple syrup. The flavor is very fine.

Formula for Ginger Ale Syrup.—Soluble Extract Jamaica Ginger, 1½ to 2 fl. oz. Tincture Lemon Peel (1 to 2), 1 fl. dr. Tincture Capsicum, ½ to 1 fl. dr. Citric Acid, 30 gr. Caramel, q. s. to color. Simple Syrup, q. s. ad. 1 pint.

EXTRACTS, FLUID, W. H. SCHIEFFELIN & CO.'S.

These Extracts are made to conform in strength with the new (1880) edition of the U. S. Pharmacopœia, viz.: *Each cubic centimetre of Fluid Extract contains the soluble constituents of one gramme of the powdered drug.* These preparations vary but slightly, as regards strength, from the Fluid Extracts official in previous editions of the Pharmacopœia, *being in every case about five per cent. weaker, or in other words, each minim represents* 95-100 *grain of the powdered drug.* It will be seen that only in exceptional cases, if any, will it be necessary to increase the dose. We have taken great pains to compile, from the highest authorities, a list of the average doses. These doses, together with many practical formulæ for the preparation of Syrups, Tinctures, Wines, etc., are printed upon the labels. It has seemed advisable to give doses and quantities by weight and measure in both the apothecaries' and the metric systems.

The process employed is that of cold repercolation. We believe this to be the best process yet devised, for the following, among other, reasons:

1. All injurious effects produced by heat are avoided.

2. The liquid which extracts the soluble constituents of a drug is the one best adapted to hold those substances in permanent solution. All processes employing heat modify the composition of the solvent to a greater or less extent, and thus render the Fluid Extract thus prepared subject to various troublesome changes and precipitations.

We use pure drugs only, and employ skilled labor, thus affording every guarantee that our Fluid Extracts shall be of uniform strength and purity.

Send for our Terms on Special Lots adapted to the average wants of the Retailer.

Golden Seal	3 00	3 10	3 25	4 00
Grindelia Robusta	4 00	4 10	4 25	5 00

*As the effects of Ergot are due to several, rather than any one active principle contained in the drug, the term "Ergotin" is misapplied, and "Extract Ergot" is more appropriate.

We have been making this for some time past by an improved process, and have had it subjected to critical tests with the most satisfactory results.

3 grains of Extract represent 17 grains of Ergot.

EXTRACTS, POWDERED, W. H. Schieffelin & Co.'s.

These Extracts are deservedly popular because of their convenience for dispensing purposes. Owing to the hygroscopic nature of most vegetable extracts, it is necessary that *the bottles containing powdered extracts should be kept well corked.* In nearly every case these Powdered Extracts represent the solid extracts from the same drugs, weight for weight, and should be prescribed in the same doses. The exact strength of each powdered extract is noted on the label.

Powdered Extracts should be kept in small, well corked bottles in a cool place. If heated or exposed to the air they are likely to "cake," and require drying and repowdering.

For the above reasons *we put up these Powdered Extracts in 1 oz. bottles only;* but we can furnish larger quantities at lower rates to those wishing them for immediate use.

ABSTRACTS, W. H. Schieffelin & Co.'s.

This new class of powdered medicinal extracts has been introduced into the last (1880) revised U. S. Pharmacopœia. All Abstracts are so prepared that *one part of the finished preparation shall represent two parts of the powdered crude drug.* Consequently the dose of an Abstract may be considered about one-half that of the crude drug or the fluid extract. We are prepared to furnish all the Pharmacopœial Abstracts, and will prepare others as may be demanded.

Abstracts should be kept in small, well corked bottles in a cool place.

Like powdered extracts, Abstracts are likely to "cake" from excess of heat or moisture. For this reason we offer them regularly in 1 oz. bottles only; but parties wishing them for immediate use can obtain them in larger quantities at lower rates.

IRON PREPARATIONS.

We make a full line of *Scale Preparations* of Iron, and guarantee them to be strictly as represented. All scale preparations containing Quinine, Strychnine, or other valuable or dangerous alkaloids are assayed, thus preventing mistakes and ensuring the full quantity of valuable alkaloids.

Iron, Bromide	oz.	16
" Carb. Precip	lb.	20
" " " in 50 lb. boxes	lb.	18
" " Proto (Vallet's Mass)	lb.	32
" " Sacchar., U. S. P	lb.	50

" "	oz.	6
" " Solution for Tincture	pint.	16
" Citrate, U. S. P. Scales, 1 lb. bots	lb.	70
" " " " 1 oz. "	oz.	8
" " and Ammonia, Soluble, U. S. P. Scales, 1 lb. bots	lb.	66
" " " " " " " 1 oz. "	oz.	8
* " " " Quinine, U. S. P. Scales, 1 lb. bots	lb	3 75
" " " " " " 1 oz. "	oz.	32

These Scales have a red color and contain no Ammonia. They contain the full amount of Quinine prescribed by the U. S. P. (12%), and can safely be used in coated pills.

*Iron, Citrate and Quinine, Soluble, Scales, 1 lb. bots	lb.	3 15
" " " " " " 1 oz. "	oz.	28

These Scales have a light green color, contain Ammonia, and are freely and quickly soluble in cold water. We guarantee these scales to contain not less than 10% of Quinine

Iron, Citrate, Quinine and Strychnine, Scales, 1 lb. bots	lb.	3 75
" " " " " " 1 oz. "	oz	32

Contain 10% of Quinine, 1% of Strychnine, and are soluble in water.

Iron, Citrate and Strychnine, U. S. P. Scales, 1 lb. bots	lb.	2 75
" " " " " " 1 oz. "	oz.	17

Contain 1% of Strychnine.

Iron Hypophosphite, U. S. P., 1 lb. bots	lb.	2 75
" " " 1 oz. "	oz.	20
" Iodide	oz.	35
" Oxalate	oz.	21
" Phosphate, U. S. P. Scales, 1 lb. bots	lb.	75
" " " " 1 oz. "	oz.	7

This Scale preparation very much resembles the Pyrophosphate Scales, newly introduced into the Pharmacopœia. Should be kept in a dark place.

Iron, Phosphate, Precip., Blue	lb.	75

This is chiefly Ferrous Phosphate.

Iron Pyrophosphate, U. S. P. Scales, 1 lb. bots	lb.	66
" " " " 1 oz. "	oz.	8

Contain no Ammonia, and are more permanent than the Scales formerly official. They should be kept in a dark place.

Iron, Sub-Sulphate (Monsel's Powder), 1 lb. bots	lb.	43
" " " " 1 oz. "	oz.	5
" " " Solution, 1 lb. "	lb.	23
" Sulphate, Dried	lb.	16
" " Precipitated	lb.	20
" Tartrate and Ammonia, U. S. P. Scales, 1 lb. bots	lb.	62
" " " " " 1 oz. "	oz.	7
" " " Potassium, " " 1 lb. "	lb.	60
" " " " " " 1 oz. "	oz.	8
" Tersulphate, Solution	lb.	20

* Special quotations given on our U. S. P. and Soluble Citrate Iron and Quinine in large lots.

JUICES, FRUIT, Pure. W. H. Schieffelin & Co.'s.

Blackberry,	quart Champ. bottles	doz.	6 50
Catawba,	" " "	doz.	6 50
Pineapple,	" " "	doz.	6 50
Raspberry,	" " "	doz.	6 50
Strawberry,	" " "	doz.	6 50
Red Currant,	" " "	doz.	6 50
Black Currant,	" " "	doz.	6 50

These Juices are equal, if not superior, in quality to the best imported. They are simply the pure undiluted juices of the fruit; their flavor is incomparably superior to those which are artificially prepared, and they are also free from the objectionable and dangerous chemicals which such contain. They retain the delicate flavor of the fresh fruit, and if tightly corked will keep perfectly in all climates.

OLEATES, W. H. Schieffelin & Co.'s.

Medication by the external application of Metallic Oleates is of comparatively recent date, and, owing to favorable results, is rapidly extending. The Oleates, so-called, which were first used were prepared by dissolving the metallic oxide in excess of commercial oleic acid. These preparations proved unstable and failed to give satisfaction. It was then proposed to make the Oleates of the heavy metals by precipitation of their soluble salts with soluble Oleates. It was found that Oleates thus prepared could be dissolved in oleic acid to produce preparations of uniform percentage strength, and it was further found that they were more permanent and medicinally more reliable.

The demand for these preparations has steadily increased, owing to the fact that many physicians have found them more readily absorbed and more reliable as regards medicinal effects than are the ointments which they are partially superseding.

OLEATES ARE SUPERIOR TO OINTMENTS BECAUSE OF—*1st. Their deep penetration. 2d. Their freedom from rancidity. 3d. Their cleanliness of application. 4th. Their great economy. 5th. Their antiseptic action.*

We manufacture a full line of these goods of the best quality as per list below. We shall be pleased to receive your orders.

PEPSIN, W. H. Schieffelin & Co.'s

We sell no untested Pepsin under our own brand. We guarantee that our *Pure Pepsin* will digest 300 to 350 times its weight of freshly coagulated egg albumen, when tested according to the method of the new U. S. Pharmacopœia given below.

In like manner we warrant our *Saccharated Pepsin* to digest 50 times its weight of freshly coagulated egg albumen, as required by the U. S. Pharmacopœia.

Pepsin, Pure, 1 lb. bots	lb.	18 00
" " 1 oz. "	oz.	1 25
" Saccharated, 1 lb. bots	lb.	3 00
" " ½ " "	lb.	3 10
" " ¼ " "	lb.	3 20
" " 1 oz. "	oz.	25

Subject to liberal discount.

U. S. P. Test for Saccharated Pepsin.—"1 part of Saccharated Pepsin dissolved in 500 parts of water acidulated with 7.5 parts of Hydrochloric Acid, should digest at least 50 parts of hard-boiled egg albumen in five or six hours, at a temperature of 38° to 40° C. (100° to 104° F.)"

For Pure Pepsin, use 200 parts of egg albumen for 1 part Pure Pepsin.

Formula for making *Liquid Pepsin* from W. H. Schieffelin & Co.'s Saccharated Pepsin.

Saccharated Pepsin	40 parts.
Hydrochloric Acid	12 "
Glycerine	400 "
Water	548 "
	1,000 "

Dissolve the Saccharated Pepsin in the water, previously mixed with the Hydrochloric Acid, add the Glycerine, let the mixture stand twenty-four hours, and filter.

W. H. Schieffelin & Co.'s Soluble Pills and Granules.

LIST OF AWARDS.

1878.—Paris.—The only Silver Medal.—The highest recompense awarded to pills.
1879.—Sydney, New South Wales.—First Award.
1879.—New York, American Institute.—Medal of Superiority.
1880.—Melbourne, Australia.—First Award.
1881.—Matanzas, Cuba.—Silver Medal.
1881.—London.—The only Award of Merit for pills alone at the International Medical and Sanitary Exhibition.
1882.—Brighton, England.—Only Award for pills alone at the Scientific and Sanitary Exhibition.
1883.—Amsterdam, Holland.—Gold Medal.
1885.—New Orleans.—Gold Medal.

PARIS EXPOSITION, 1878.
The only highest "Recompense" awarded to Pills.

MEDAL OF SUPERIORITY.
American Institute, New York, 1879.

GOLD MEDAL.
Holland International Exhibition, Sept., 1883.

FIRST AWARD.
Sydney, New South Wales, 1879.

SILVER MEDAL.
Melbourne, Australia, 1880.

GOLD MEDAL.
World's Industrial and Cotton Centennial Exposition, New Orleans, 1885.

W. H. Schieffelin & Co.'s
Soluble Pills and Granules.

UNEQUALLED FOR
Purity in Composition, Solubility in Coating, Uniformity in Size, Perfection in Form and Finish.

These Pills are the result of many years' study of the subject, during which time each defect, as it became manifest, has been met and overcome.

We guarantee that their action will be as prompt and thorough as any uncoated pill that can be made, while they possess the advantages over pills not coated that they can be swallowed without taste, that the soluble condition of the mass is preserved by exclusion from atmospheric contact, and that substances like Proto-Salts of Iron, Phosphorus, etc., are effectually protected from oxidation.

THE COATING *is an inert, soluble compound, dissolving upon the tongue in all cases almost instantly, entirely* TASTELESS, *perfectly* TRANSPARENT *and* COLORLESS, *thus disclosing to the eye the exact color and appearance of the pill-masses.*

THE COATING *is so thin that it scarcely increases the size of the pill, thus securing as small a bulk as the quantity of material will admit, while its application is so even that no inequalities exist.*

EVERY PILL *is perfectly round; each pill of the same variety corresponds with its neighbor exactly in size and weight.*

THE MATERIALS *used in forming the various masses are* INVARIABLY *the* BEST *the market affords, weighed with scrupulous exactness, combined so thoroughly that the medicinal matter is perfectly diffused throughout the mass.*

THE EXCIPIENTS *employed are such as are best adapted to permanently secure a soft soluble condition of the mass.*

Our Pills can be procured from all the leading druggists in the country, or can be ordered direct from us. Samples furnished if desired. Price-List and Formula-Book mailed to any address.

Private formulas of not less than three thousand pills made up, and estimates furnished.

Dealers will please observe that we do not supply our pills except in bottles of 100 and 500. It is obvious that this rule is necessary in order that they may be recognized as pills of our manufacture.

SOLUBLE PILLS AND GRANULES.

	Bottles of 100 Pills.	Bottles of 500 Pills.
Abernethy's { Pulv. Aloes Socot, 2 grs. / Pulv. Ipecac., 5-6 gr. / Pil. Hydrarg., 1 " / Extr. Hyoscyami, 2 grs. }	80	3 80
Acidi Arseniosi, 1-60 gr., 1-50 gr., 1-40 gr., 1-30 gr., 1-20 gr.	40	1 80
Acidi Salicylici, 2½ grs.	60	2 80
Acidi Salicylici, 5 "	1 00	4 80
Acidi Salicylici et Morphiæ Sulph. { Acidi Salicylic. 2½ grs. / Morphiæ Sulph., 1-12 gr. }	1 00	4 80
Aconitiæ (Duquesnel's), 1-480 gr., 1-200 gr.	60	2 80
Aconiti, Rad. Tincturæ ⅛ Min.	40	1 80
Aloes, U. S. P. { Pulv. Aloes Socot., 2 grs. / Pulv. Saponis, 2 grs. }	40	1 80
Aloes Comp., U. S. P. (Pil. Gentian Comp.) { Ext. Gentianæ, ⅔ gr. / Pulv. Rhei, 1⅓ " / Pulv. Aloes Socot., ⅔ " / Ol. Carui, 1-5 gtt. }	40	1 80
Aloes et Assafœtidæ, U. S. P. { Pulv. Aloes Socot., 1 1-3 grs. / Pulv. Assafœtidæ, 1 1-3 " / Pulv. Saponis, 1 1-3 " }	40	1 80
Aloes et Ferri { Pulv. Aloes Socot., ½ gr. / Ferri Sulph. Exsic. 1 " / Ext. Conii, ½ " / Pulv. Zingib. Jam., 1 " }	40	1 80
Aloes, Hyoscy., Nucis Vom., et Ipecac. { Pulv. Aloes Socot., 2 grs. / Ext. Hyoscyami, 1 gr. / Ext. Nuc. Vom., 4-15 " / Pulv. Ipecac., 1-6 " }	80	3 80
Aloes et Myrrhæ, U. S. P. { Pulv. Aloes Socot., 2 grs. / Pulv. Myrrh, 1 gr. / Pulv. Aromatici, ⅓ " }	45	2 05

SUBJECT TO USUAL DISCOUNT TO THE TRADE.

IMPORTANT NOTICE.

The custom of selling quinine pills in bulk seems to increase. We have always regarded such custom as strongly tending to create a competition which results in cheapening the pill at the expense of its quality, and facilitating the substitution of inferior or adulterated goods.

We have held aloof from this custom, as we intend to preserve the reputation of our goods for full weight and perfect finish. We therefore again call attention of dealers and others to the fact that our pills are sold only in bottles of 100 and 500 pills, in order that they may be recognized as goods of our manufacture.

W. H. S. & Co.'s Powdered Drugs and Spices.

Probably there is no class of goods where adulteration is more frequent and detection more difficult than the so-called "*pure*" powdered drugs and spices. We use the word adulteration in its widest sense, and include not only the *addition of worthless foreign substances*, but the *substitution of inferior articles* which may still be true to name.

The dealer who supplies powders made from *mouldy, worm-eaten, or exhausted drugs* is just as truly furnishing what his customer does not want as is he who is adding terra alba or powdered bread crumbs.

What the buyer wants and what he ought to get is, POWDERS FROM SOUND, PURE DRUGS, and nothing else.

Appreciating these facts, we have always furnished a complete line of pure powders, and so largely have these goods been sold, that in order to keep pace with the demand, we have purchased new and improved machinery, which is already working to its fullest capacity. We have room and abundant steam power, good drugs and skilled workmen, and we propose to furnish a still larger proportion of the powdered drugs and spices demanded by the pharmacists of this country.

We cannot sell powdered drugs for less than the cost of crude drugs, as has sometimes been done, but the advanced cost for powdering is only slight, and all the goods are *guaranteed*.

We offer below a selection of the more important of these powders in attractive gold-lacquered cans of 1 pound each. In 5-pound gold-lacquered shelf cans a deduction of 2 cents per pound will be made. The prices include containers.

By the use of these cans, and by putting up the several drugs when they are fresh and dry, it is obvious that the full therapeutic strength is better maintained.

We also offer these powders and many others not enumerated packed in boxes of twenty-five pounds and fifty pounds, special prices for which we will be glad to furnish on application.

Quinine, Sulphate, W. H. S. & Co.'s., 1 oz. bots	oz.	55
" " " 5, 10 and 20 oz. tins	oz.	50

We guarantee that every ounce of SULPHATE OF QUININE *sold under our brand shall be* WELL BLEACHED, *and shall meet the* STRICTEST REQUIREMENTS OF THE U. S PHARMACOPŒIA. Every lot is rigidly tested by methods prescribed by the Pharmacopœia and none is allowed to leave our laboratory that does not come fully up to these standards.

Quinine, Bi-Sulphate, W. H. S. & Co.'S., 1 oz. bots	oz.	55
" " " 5, 10 and 20 oz. tins	oz.	50

This salt is rapidly gaining popularity among physicians owing to its ready solubility in ten parts of cold water, and its more prompt and efficient action in cases where the ordinary Sulphate of Quinine acts slowly or not at all.

We prepare the Bi-Sulphate in fine white crystals convenient for dispensing. It is well adapted for use in Pills, Wafers, Elixirs, Syrups, Wines, and in most liquid mixtures. Its taste may be disguised by our Fluid Extract Liquorice Comp., or better by our Scaled Ammoniacal Glycyrrhizin. Dose, same as the Sulphate. Special quotations for large lots.

TEST SOLUTIONS,

According to the New U. S. Pharmacopœia.

The new Pharmacopœia requires greater purity in acids, salts, and preparations generally, and prescribes certain reagents of definite strength to be used in testing. A demand has arisen, in consequence, for reagents to be used in applying pharmacopœial tests, and we have made arrangements to furnish complete or partial sets, as may be desired, at reasonable rates. We use none but the best pure chemicals which can be obtained.

The qualitative reagents are made in exact accordance with the Pharmacopœia, and the volumetric solutions are exactly standardized.

Below is a list of the reagents which we can supply; any others which our customers may desire can be furnished on short notice.

We are prepared to put these up in sets to suit, in 4-oz. glass-stoppered, flint bottles, with paper labels. Or we can furnish the ones designated by a star (*), in sets of forty, in ⅛-litre (4¼ fl. oz.) bottles, with labels blown in the glass—decidedly the best medium-priced reagent bottles in the market. Additional bottles of the same style, with blank spaces for labels, can be furnished to those desiring larger sets.

Prices for Bottles and Reagents.

Set of 40 Bottles, Blown Labels	5 83
Set of 40 Bottles, Blown Labels, 3 blanks and 37 filled with reagents, designated by a star (*) in list below	12 co

" " Soda (Gardner's), 1 lb. bots	lb.		85

The Hypophosphites contained in the above preparations are freed from impurities and in a neutral state, in precise accordance with the views of DR. CHURCHILL.

NOTE.—*Hypophosphite of Iron, when in combination, gradually assumes a darker color. To avoid this and secure uniformity in appearance, it is recommended to keep the simple preparations—Lime, Iron, Soda and Potassa—and combine them as wanted. Proportions for combination will be found on the label. These are to be followed, unless otherwise designated by the Physician.*

Made from the fresh outer peel of the fruit. Very fine flavors for use in elixirs, wines, syrups, ginger ale, etc.

WARBURG'S TINCTURE.

As Prepared by W. H. SCHIEFFELIN & CO.

We beg to call attention to this article as prepared by us for several years past, and which has attained a large sale.

There is so much testimony as to its extraordinary virtues in Malarial Fevers, that its powers can scarcely be questioned. At first a proprietary medicine, its formula was afterwards revealed by a voluntary act of its inventor, Dr. Carl Warburg, late of Vienna, but now of London.

Our WARBURG'S TINCTURE is prepared in accordance with the original formula except that Confection Theriac Ph. G is substituted for Confection Damocratis—an unofficinal and impracticable preparation, some ingredients of which are nowhere obtainable.

1 lb. bottles	lb.	2 50
½ "	lb.	2 60
¼ "	lb.	2 75
1 oz. bottles	oz.	20

Warburg's Tincture (without Aloes) same prices as above.

WARBURG'S TINCTURE, Improved.

This Improved Warburg's Tincture is prepared to meet a demand for a substitute lower in price than the original Tincture.

It is made in exact accordance with our Warburg's Tincture, with the exception that instead of Sulphate of Quinine 9 3-5 grains, each fluid ounce contains:

Cinchonia Sulphate ..... gr. 3 1-5
Cinchonidia Sulphate ..... gr. 3 1-5
Chinoidine, Purified ..... gr. 3 1-5

Dose: Same as for our "Warburg's Tincture."

1 lb bottles	lb.	1 50
½ "	lb.	1 60

WARBURG'S TINCTURE EXTRACT.

For making Pills or Capsules. 1 oz. jars, $1.75 each.

1 grain of the extract represents 18 minims of the Tincture.

TRITURATIONS, U. S. P., W. H. Schieffelin & Co.'s.

This class of preparations, introduced into the new (1880) edition of the U. S. Pharmacopœia, consists of

The Medicinal Substance, 1 part by weight.
Powdered Milk Sugar, 9 parts by weight.

They must be intimately mixed and in the finest attainable state of subdivision. We test all our triturations with the microscope in order to be assured that these requirements are fully met.

WINES, W. H. Schieffelin & Co.'s.

These Wines are prepared with great care, and absolutely contain the proportions of medicinal matter represented.

	Pints, per doz.	Quarts, each.	5 Pts., each.	Gall. each.
Beef	8 00	1 20	2 80	4 00
One dessertspoonful represents two drams of Lean Beef, with Sherry Wine.				
Beef and Iron	8 00	1 20	2 80	4 00
One dessertspoonful represents two drams of Lean Beef, and two grains of Pyrophosphate of Iron, with Sherry Wine.				
Beef, Iron and Calisaya	10 00	1 50	3 50	5 00
One dessertspoonful represents two drams of Lean Beef, two grains of Pyrophosphate of Iron, ten grains of Calisaya Bark, with Sherry Wine.				
Calisaya	8 00	1 20	2 80	4 00
One dessertspoonful represents ten grains of Calisaya Bark.				
Iron, Bitter	10 00	1 50	3 50	5 00
One dessertspoonful contains two grains of Citrate of Iron and Quinine.				
Iron, Sweet	10 00	1 50	3 50	5 00
One dessertspoonful contains two grains of Soluble Citrate of Iron, with Sherry Wine and Orange Flavoring.				
Pepsin	12 00	1 80	4 20	6 00
One dessertspoonful represents five grains of Pepsin, with the proper amount of Hydrochloric Acid.				
Wild Cherry	8 00	1 20	2 80	4 00
One dessertspoonful represents twenty grains of Wild Cherry Bark.				
Wild Cherry, Ferrated	9 00	1 35	3 15	4 50
One dessertspoonful represents twenty grains of Wild Cherry Bark, and five minims of Tincture Chloride of Iron.				

WINE OF COCA, W. H. Schieffelin & Co.'s.

Put up in 16 oz. bottles.....$8.00 per dozen.

An agreeable and efficient Tonic and Stimulant, prepared in a special manner to secure the full effect of the plant.

The highest authorities agree in according to the plant ERYTHROXYLON COCA the following properties, viz.:

It braces and controls the enfeebled nervous system.

It surprisingly increases the muscular power and intellectual capacity.

It acts as a direct tonic upon the vocal chords, thus increasing the volume and clearness of the voice.

It overcomes the timidity of actors and public speakers, and imparts tone and vigor to the organism.

While it acts as a powerful food-replacing agent, it does not destroy, except temporarily, the natural appetite, and its use is said not to be followed by languor or depression.

It will be found of great service as a recuperative agent in convalescence from various wasting diseases.

This Wine is prepared from Coca Leaves of the best quality, and in such a manner as will most effectually secure the full effect of the Coca plant.

DOSE.—From one to two tablespoonfuls, to be taken after meals; for children, a proportionate quantity.

Zinc, Acetate	lb.	44
" Chloride, Fused	oz.	6
" " Granular	oz.	6
" Sulphate	lb.	10
" " Purified and Granulated, W. H. S. & Co.'s, 1 lb. cans	lb.	25
Specially adapted for fine prescription use.		

PATENT MEDICINES AND PROPRIETARY ARTICLES.

NOTE.—*Such goods in the following list as are sold under the "Contract or Rebate Plan" we have, for the sake of convenient reference, indicated by the word "REBATE" in the outer column.*

QUINLAN'S PATENT NOVELTY DRAWER-PULL.

Plain White Glass Label.....2 pieces, per doz., $2 50

" " " " .....1 piece, " 1 50

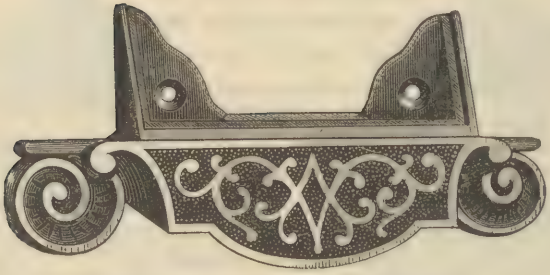

FIGURE 1.

On account of some objections being made to the old Pull, as persons state they could not read it readily when placed on the bottom row of drawers, we have thought it well to introduce the above Pull, which has a projecting angle. It is composed of three parts, and when adjusted appears as Fig. 1. A similar Pull, made to imitate this patent, has been in the market, but in pulling heavy Drawers, the outer frame is liable to fall off and is apt to break the label. In this Pull this is avoided by a small screw, which fastens the same together.

This cut represents the 2-piece Pull in sections.

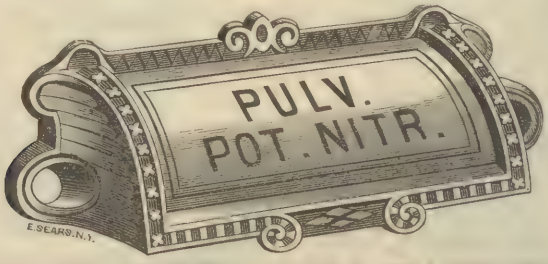

Finished in Italian Antique French Bronze.

Complete with Glass Labels.....per doz., $2 50

QUINLAN'S PATENT CONVEX DRAWER-PULL.

Entirely New.

The construction of this Pull is entirely different from any other style now manufactured, being more ornamental in appearance, novel and compact in design. It consists of a handsomely moulded metal frame (Bronze, Antique, or Nickel) holding a convexo-concave metal plate with a correspondingly curved heavy glass label, which can be lettered in any style. This curve-shaped label in Pull affords ample room for writing the longest names, with little or no abbreviations—two or more lines of writing being sometimes requisite to indicate contents of drawer. (This cannot be done with any other Pull made.) The curved Pull label can also be read distinctly in any position and at a greater distance than any other now made. The finger or pull-rest is placed under the glass label, thereby economizing space, and thus rendering this Pull the most desirable in the market.

Complete, with Labels.....per doz., $3 00

Patent Convex Pull in Nickel Plate..... " 4 00

Schieffelin's Pharmaceutical Elixirs, Syrups, and Wines.

BESIDES A NUMBER OF OTHERS WHICH ARE CLASSED AS DRUGGISTS' SUNDRIES AND ARE ENUMERATED ON PAGE 278 IN THE SUNDRIES DEPARTMENT.

It will be observed that the foregoing pages, as well as the following ones comprising the Druggists' Sundries Department, are made up entirely of matter arranged for convenient reference; that the leaves of reference matter are not sandwiched with diverting attractions like displayed advertisements which would interfere with its utility for such purpose. Many handsomely gotten up Prices Current Books are, of late, so given over to advertisements that their utility as books of reference, which should be the main object of their publication, is very seriously affected; the necessity of having to thumb and look over a page or more of irrelevant matter in finding what is wanted, consuming time and taxing patience. The freedom of our book from such objectionable features, as well as its completeness, has made it very popular for many years past.

There are a few advertisement pages, mostly ours, of articles we either own or control, grouped in the back of the book, and we trust they will receive a proper share of attention.

BANDAGES, SUSPENSORY, DR. MILIANO'S:

Dr. Miliano's Contracting and Compressing Suspensories without rubber. These Bandages have been in use for some years, and have the approval of our most eminent physicians, as superseding in an eminent degree the ordinary suspensory, as well as strips of adhesive plaster, where compression is required in the relief or cure of the several swellings, varicocele, pain, etc. For full description and further particulars as to their advantage over others, see Circular accompanying each Bandage.

No. 1. Contracting.....doz. 7 50 | No. 2. Compressing.....doz. 15 00

IMPORTANT NOTICE TO THE RETAIL DRUG TRADE.

Have your Pill and Powder Boxes Labeled; it will save you much time and trouble. Try it once and you will continue to use them.

Boxes in black list, on which the Catalogue price is $2.00 or over, we label as follows, without extra cost:

1 gross of a size, list price, net. 3 gross of a size, 25 per cent. discount.

We include Nos. 29, 30 and 31 in above rule. For example:

1 gross	No. 29.....	$1 50	net.	3 gross	No. 29.....	$1 50	less 25 per cent.
1 "	" 30.....	1 75	"	3 "	" 30.....	1 75	" "
1 "	" 31.....	2 00	"	3 "	" 31.....	2 00	" "
1 "	" 31 EX....	2 25	"	3 "	" 31 EX ...	2 25	" "

On large orders, will make special prices.

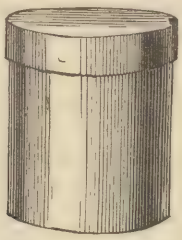

For boxes on which the Catalogue price is less than $2.00 we charge the following extra prices for labels:

1 gross.....50c. 2 gross.....75c. 3 gross.....$1.00. 5 gross.....$1.25.

"R.S.W." "London."

UNDER the above trade-mark, we have imported, for many years, a line of Toothbrushes of English manufacture, which for their superior quality and finish have become widely and favorably known to the trade and general public. We are constantly adding new and desirable patterns, and will be pleased to forward samples upon application. Imported to order in quantities of three gross or more and stamped with firm name without extra charge. For styles, reference may be had to Illustrations on pages following.

PATENTED JULY 21ST, 1874.

DISHES, EVAPORATING, IRON, GRADUATED:

Price, 40 oz.....each, 1 75
" 96 " ..... " 2 50

THE object of this invention is to evaporate Solutions and Liquids of all kinds, without resorting to the present slow and tedious process of emptying the dish from time to time into a glass or other measuring vessel, for the purpose of ascertaining when you have evaporated the fluid to the desired quantity.

DISHES, EVAPORATING, IRON, Shallow Porcelain Lined, with Lip and Handles.

MACHINES, PILL, COOPER'S PATENT.....each, 12 00

Brass Plates. Mahogany Board and Drawer.

This machine has two sets of reversible Plates, on which four different sizes of Pills can be made, and the sides of the rolling board are so constructed as to allow the mass to be rolled just the size required for each respective size of Pills, thereby insuring always the full number of perfectly round pills.

MACHINES, PILL:

Brass on Walnut Block, with Side Rollers.

12 Pills, 3, 4, or 5 Grains	each,	3	25
18 " 3, 4, or 5 "	"	3	75
24 " 3, 4, or 5 "	"	4	25

Machines for 30, 36, 50 Pills.

MACHINES, PILL:

Without Side Rollers.

12 Pills, 3, 4, or 5 Grains	each,	3	25
18 " 3, 4, or 5 "	"	3	75
24 " 3, 4, or 5 "	"	4	25

Any size Pill Machine furnished to order.

Archibald's Suppository Machine.

FOR MAKING SUPPOSITORIES RAPIDLY BY COLD COMPRESSION.

(PATENTED APRIL 29TH, 1879; IMPROVEMENTS, 1886.)

Figure **A** represents the machine complete (about one fourth of the size), from which is made Rectal, Vaginal, Urethral, and Nasal Suppositories. 1—Is the plunger, in act of compression. 2—Is the hand lever. 3—Hopper. 4—Swing bed for holding the mould. 5—Trough for urethral or nasal suppositories. 6—Lever to tighten the hopper. Figure **B**—Machine after compression and cut-off. Figure **C**—Showing the manner the suppository is lifted from the swing-bed. Figure **D**—The method of removing the suppository from the half mould by gently compressing with the thumb. Figure **E**—Shows the two half moulds, one containing the suppository complete. Figure **F** The Vaginal Suppository (one-third size.) Figure **G**—The Urethral or Nasal Suppository finished.

Where 15-grain Suppositories are ordered, the amount of Cacao Butter to be used should be 15 grains, less the amount of medicinal ingredients. The same rule applies to Suppositories containing other weights.

Price of Machine, with five sets of moulds, two for Rectum (15 grains and 30 grains), one for Vaginal (120 grains), and one for Urethral and Nasal, complete..... 10 00

Price of Machine, with two sets of moulds for Rectum and one Vaginal mould..... 8 00

(See directions for use on next page).

Directions for Use.

When Suppositories are ordered it is at the option of the pharmacist to employ either cacao butter, grated on a lemon-grater, with the extracts in a state of powder; and by means of a slab and spatula to thoroughly incorporate the cacao and extracts together, throw the material into the hopper, and use the lever as shown in Figure A; or he may take the cacao as ordinarily sold in the market and work it in with extracts in the same manner that a pill mass is made, taking care to thoroughly diffuse the active ingredient, and when thoroughly mixed throw the mass into the hopper and operate the lever to compress the suppository. In warm weather more or less difficulty will occur in moulding, owing to the great liability of the material to fuse by constant trituration. In such case, previous to making the suppository, we would suggest the following precaution to ensure elegant results: Before commencing to make the suppository mass, place in a vessel of ice-water the mould you intend to use, and let it remain immersed until the mass is completed. Allow the mass to rest for a moment or two in a cold place, in order to set it firmly, while writing the label for the box; then, when that is completed, place your moulds, which are until now immersed in ice-water, in the swing bed and throw in the hopper the suppository mass, and compress. The suppository is cut off by drawing the piece to one side, and the suppository removed by raising one-half of the mould only out of the swing bed by means attached—see Fig. C. This section of the mould will contain the moulded suppository, which can readily be detached from it by gentle pressure at the apex of the cone, or the whole mould with suppository in it can be removed from the machine, and by gently moving the sections the suppository will drop out.

MILLS, DRUG, SWIFT'S NEW "B."

MILLS, DRUG, SWIFT'S:

The Swift Drug Mill has been long and avorably known to the trade, and with the improvements from time to time made, it has kept even pace with the times, but this last places it beyond all competitors.

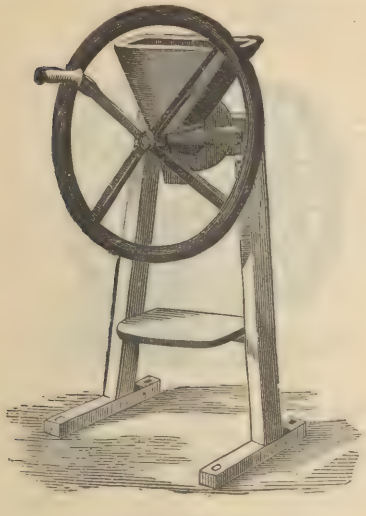

We hope to be favored with your order for these mills, and believe that you cannot fail to be pleased with them, as they are admirably adapted to the wants both of the Wholesale and Retail Druggist.

We confidently offer these Mills as the very best made. They have stood the test of many years' service in the laboratories of the leading pharmaceutists of the country, and may be relied upon for doing perfect work.

Is intended to be screwed upon the counter. This mill has many advantages over the others, having great power, is easily adjusted to any degree of fine grinding, and can be opened as shown in the cut, for cleaning, and closed again ready for work, in ten seconds, and without changing the degree of fineness as adjusted; no tools being required. When open, the parts are in the best possible position for dusting out, and any amateur can easily readjust them. The hopper is large, and the can to receive the powder is conveniently arranged.

Dealers as well as others will at once perceive that Swift's "B" Drug mill has peculiar advantages over all others that have yet been presented to their notice. It is quite ornamental, and a handsome counter-fixture. The price is fixed very low, with the hope of large sales. **Price, $20.**

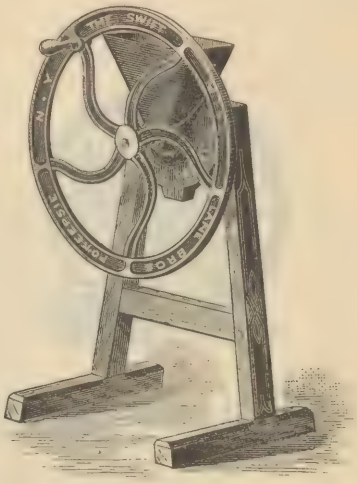

MILLS, DRUG, SWIFT'S.—*Continued.*

"OLD STYLE."

PRICE.....$8.00

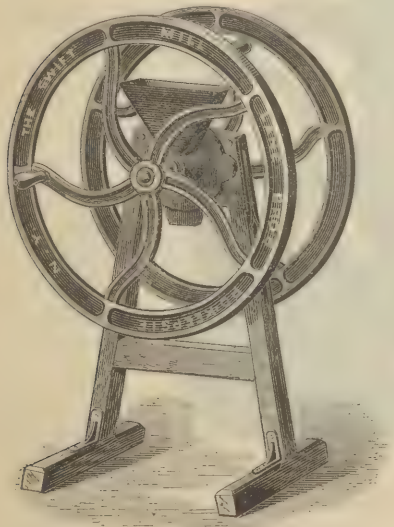

We have reduced the price of the "Old Style to $8.00, at which price it is, considering quality, the cheapest in the market.

"NEW STYLE."

PRICE.....$9.00

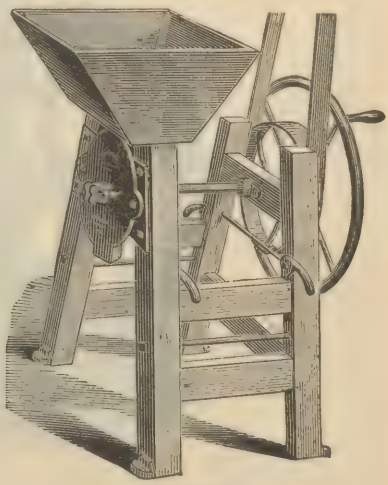

The "New Style" is fitted with a heavier fly-wheel, and it is easily taken apart and cleaned.

"CHAMPION."

PRICE.....$13.00

The "Champion" is fitted with finer grinding plates, thus adapting it for finer work, though it is capable of passing coarse material. Being fitted with two heavy fly-wheels, it may be worked by either one or two persons. The plates of this Mill are quickly and easily separated for cleaning by the removal of two nuts.

"POWER."

PRICE.....$28.00

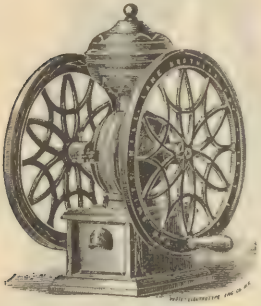

The "Power" Mill is made very strong and of few parts. May be used by hand when other power is not obtainable; and in grinding fine substances a feed arrangement is attached, by which the amount admitted may be graduated according to the power at command

---

Grinding plates $3.00 a set.

Any of these Mills packed in shipping order without extra charge.

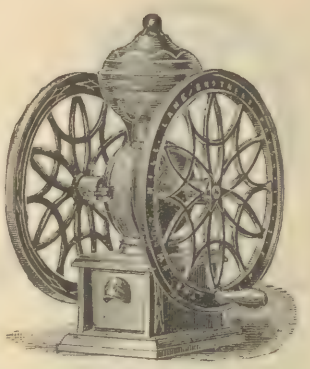

MILLS, DRUG, SWIFT'S.—*Continued.*

No. 13.

This Mill has a drawer for receiving the drugs, two 12-inch fly wheels, and is finished in the same manner as the larger sizes.

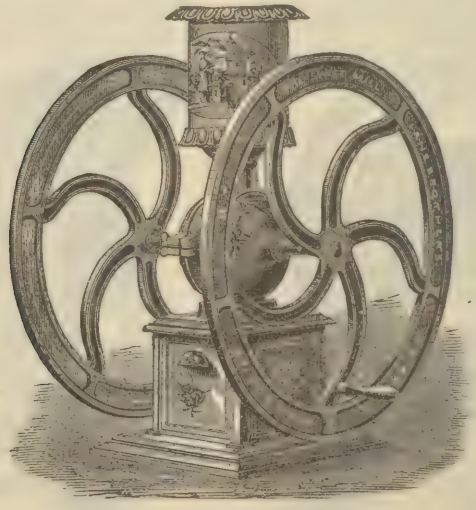

Price $5.00.

No. 14.

This Mill has a drawer for receiving the drugs, two 15-inch fly wheels, and is finished in the same manner as the larger sizes.

Price, $8.00.

No. 16. Price, $20.

The Mill is very similar to the "B" Mill, with the exception that the grinding-plates are horizontal instead of perpendicular, with the receiver inclosed in a drawer. It is readily adjusted to any degree of fine grinding, as easily cleaned and quite as ornamental and handsome a counter-fixture as the "B" Mill.

We can recommend it as a very desirable Mill for the use either of the wholesale or retail druggist. Price, $20.

TRADE MARK

Pneumaspis.

REGISTERED.

The Female Chest and Lung PROTECTOR,

Retains its shape, and is the only uniform Porous Protector manufactured.

Patented Aug. 22, 1876, *and July* 21, 1868.

W. H. Schieffelin & Co.,

170 WILLIAM STREET, N. Y.,

Wholesale Druggists,

SOLE AGENTS U. S.

ENDORSED BY THE MEDICAL PROFESSION.

Price ..... per doz. 15 00

A liberal discount to the trade.

Being uniformly porous, it allows the heat from the insensible perspiration of the body to pass freely away, at the same time being invulnerable to air or cold. This alone places these Protectors in advance of all others.

The Female Chest Protector is modelled after the female form into a graceful shape, *which it retains*, and therefore improves the figure without the aid of corsets. This is one of the grounds for the Medical Profession recommending its use for delicate females.

It does not clog, felt, or roll up, as in the ordinary felt, and can be cleansed without fear of shrinking its very durable texture.

4.	" " 6 "	" 5 "	"	5 00

No. 12.

GEM SCALE, H. TROEMNER'S.

Length of Base, 10 inches. Size of Scoop, 7 x 3½ inches.

This scale is adapted for weighing lozenges, bon-bons, etc.; it is small, light, and ornamental. Brass Scoop and Weight Plate. Provided with a set of Solid Brass Weights, 4 ounces and down, which are neatly fitted separately in a platform attached to the base of the scale.

No. 5. Size of Scoop, 7 x 3½ inches. Capacity, 8 ounces..... ...each, 6.00

FIG. 17.

THE NEW "VICTORIA" BOX PRESCRIPTION SCALE, H. TROEMNER'S.

Box of Antique Oak of the finest finish, richly carved by hand; has drawer for weights; hinged cover with beveled French plate glass top; stop hinges; scale is full jeweled, like a watch; all bearings set with "Agate" to prevent rust or corrosion; pans are of solid silver; Scale has the very highest attainable sensibility; elegant Tennessee marble Top; the entire mechanism is the very best and latest improved; scale is sensible to 1-30 grain, and owing to the "Agate" settings is specially adapted to damp climates.

No. 17.	Diameter of Pans, 3 inches. (Solid Silver.).....Price,	30 00
18.	Same Scale, with Nickel-Plated Pans..... "	25 00

TROEMNER'S FAMOUS No. 12 BOX PRESCRIPTION SCALE.

In French polished ebony box with marble top, which has countersunk basin in it to hold the weights; pans are nickel-plated; scale is sensible to 1-30 grain, and is of the finest finish; has perfect oscillation; is very durable; over 13,000 of these popular scales are in use in the United States, Canada, Australia, England, and South America.

No.	Diam. of Pans.	Price.
12.	3 inches.	17 00
15.	3¾ "	19 00

FIG. 14.

"CLIMAX" BOX PRESCRIPTION SCALE.

Made by the Climax Co.; has 2¾ inch nickel pans; mahogany box, ebony mouldings; hinged cover; a reliable and substantial scale.

No.	Diam. of Pans.	Price.
14.	2¾ inches.	12 50

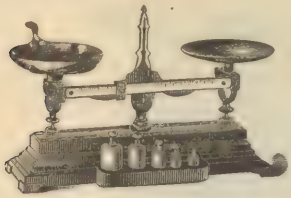

FIG. 16.

DISPENSING SCALE. (NEW.) TROEMNER'S

Handsomely finished scale for rough prescription work; has 3¾ inch nickel-plated movable pans; a side-beam in front of scale with a sliding weight; this beam is divided into 120 divisions, each division representing one grain; an extra row of metric divisions is placed on bottom edge of beam, each representing one decigram. Platform or shelf is attached to base of scale, in which are fitted a set of solid brass weights, 2 oz. and down. Scale sensible to ½ grain.

No.	Diam. of Pans.	Capacity.	Price.
16.	3¾ inches.	4 oz.	8 00

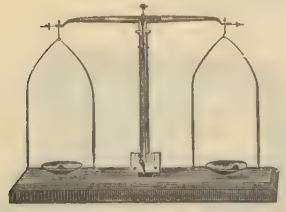

FIG. 20.

PRESCRIPTION SCALE, TROEMNER'S.

Scale of the very finest construction. Entire scale is lacquered, which is very much better than nickel; pans are of solid silver. Beam has adjusting screws, by which the scale can be quickly balanced. Mounted on a genuine black Belgian marble base; sensible to 1-100 grain. This scale is specially adapted to fine weighing, such as poisons, etc.

No.	Diam. of Pans.	Sensibility.	Price.
20.	2¼ in. (Solid Silver.)	1-100 gr.	20 00

Same scale, mounted in a mahogany glass case, with counterpoised sliding door, 27 00

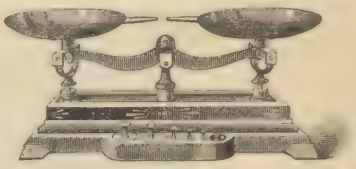

FIG. 13.

LABORATORY SCALES. (NEW.)

Scale specially designed for Laboratory and Pharmaceutical work; has six-inch nickel pans, which are movable. Scale will carry one pound in each pan; is sensible to a ½ grain; has a full set of weights running from 8 oz. Troy and down to 1 grain; these are neatly fitted in a projecting shelf attached to the base of scale. Metric weights furnished in place of Troy when so desired.

No.	Diam. of Pans.	Capacity.	Price.
13.	6 inches.	1 lb.	9 00

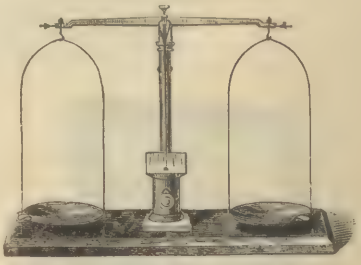

FIG. 22.

PRESCRIPTION SCALE, TROEMNER'S.

Of very superior finish; same general style as Figs. 20 and 21, but is much larger and carries a heavier load; can be safely loaded with 2 ounces; has 3-inch nickel pans; entire scale lacquered; adjusting screws on the beam; Tennessee marble base; sensible to 1-50 grain.

No.	Diam. of Pans.	Sensibility.	Price.
22.	3 inches.	1-50 grain.	18 00

Same scale, all nickel-plated, with a glass level attached, 22 00.

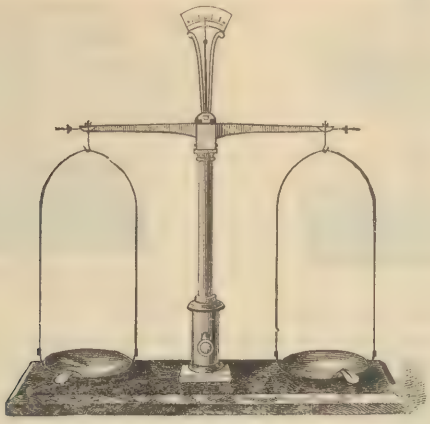

FIG. 23.

"AGATE" PRESCRIPTION SCALE, H. TROEMNER'S.

Scale has indicator pointing upward, and weighs rapidly. Scale is full jeweled, having six "Agate" bearings, making them proof against rust or corrosion. Beam is plated with gold, all the other parts nickel, so as to save cleaning; has adjusting screws on the beam; sensible to 1-100 grain; scale is very roomy and comfortable to work with, and will stand the hardest kind of continuous usage.

		Price,
Fig. 23.	Diameter of Pans, 3 inches. Sensibility 1-100 grain.....	26 00
	Mahogany Case to suit this Scale.....	12 00

One of the most popular scales in the list.

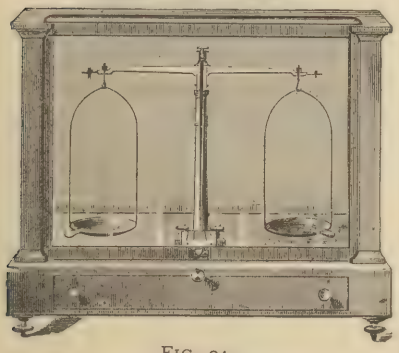

FIG. 24.

"AGATE" PRESCRIPTION SCALE:

Elegant scale in French polished mahogany case; with counterpoised door sliding upward; has leveling feet; glass level; scale has indicator pointing downward; beam is plated with gold, all the other parts nickel; pans are 3-inch solid silver; all the bearings are jeweled; glass case is extra large and roomy.

Fig.	Diam. of Pans.	Sensibility.	Price,
24	3 in. (Solid Silver.)	1-100 gr.	45 00

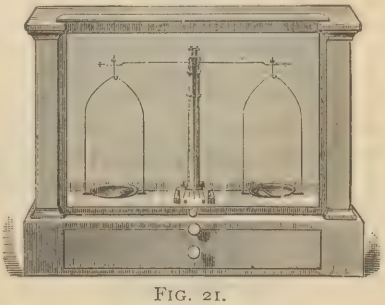

FIG. 21.

PRESCRIPTION SCALE, TROEMNER'S.

In French polished mahogany case, with counterpoised door, sliding upward. Scale is of finest finish, all lacquered; pans are nickel-plated; has improved raising apparatus; adjusting screws on the beam; sensible to 1-50 grain. This scale is one of the leading favorites.

Fig.	Diam. of Pans.	Beam.	Price,
21	2½ in.	8½ in.	22 00

Same scale provided with all "Agate" bearings, $5.00 extra.

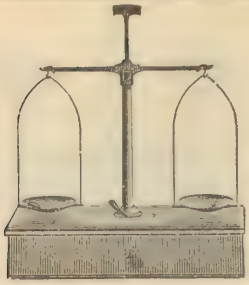

FIG. 18.

ARMY PRESCRIPTION SCALES.

On polished walnut box; scales take apart and pack away in drawer of box; a well-finished and reliable scale, made in a mechanical way; well adapted for physicians' offices; a full set of weights are included.

NOTE.—All Newton's Stoppers discharge liquids or powder without removing the caps. One turn of the cap will open or close any Stopper. They are air-tight, and do not leak. The Stoppers numbered below 100 are manufactured from *Fine Metal*, and all others from *Pure Block Tin*. The crown is made in five sizes, same flange as Nos. 230, 231, 232, 233 and 234. Nos. 230, 330 and 253 styles are made in five sizes. The upper part of Nos. 7 and 8, powder, can be made same shape as Nos. 9, 10 and 16, only larger. For fine gold plating we charge from $1.50 to $2.00 per gross extra.

In ordering Stoppers do not fail to give size of cork you require—See cuts on opposite page.

SYRINGES, HYPODERMIC, GLASS:

The above cuts illustrate a perspective view of the syringe and case—showing full size of both—and also a sectional view of the piston and top of syringe. The improvements we desire to call attention to are as follows: The arms extending each way from top of syringe to rest against the fingers, while the thumb placed upon the head of the piston, A, enables the operator to hold the syringe steady while using it in one hand. The cap, D, which closes the syringe air-tight when not in use, and prevents the "drying out" which has been complained of so much. The ingenious contrivance for expanding and tightening the plunger in the glass barrel, without taking the syringe apart, is the most *important improvement*, as follows:

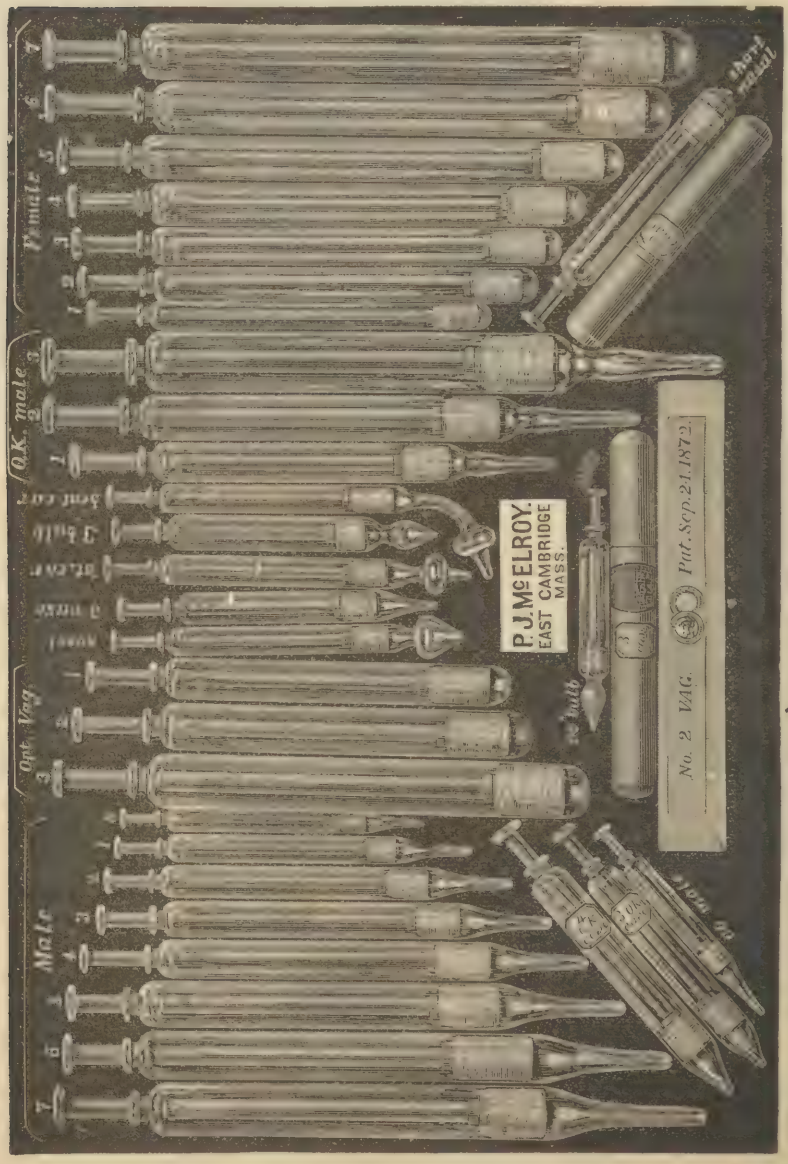

The nut, C, has conical point extending under the leather plunger. By drawing the piston, A, out to full extent the nut, C, fits into wrench, B; then, by turning the piston, A, to the left the nut is run down, expanding the plunger in every direction, making it as tight as desired. By turning the piston, A, to the right the nut is run up, and the pressure relieved.

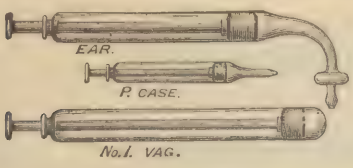

The *value* of this invention will be apparent at once to every user of the Hypodermic Syringe. The glass barrel is made true and of equal calibre, and holds 30 minims. The metal parts of the syringe are made in the best manner and nickel plated, fenestrated on both sides, and graduated on piston.

No. 1.	Hypodermic Syringe, with Glass Barrel, protected by a Fenestrated Metal Cylinder, showing graduations on the piston rod, in Morocco Case, Hook Catch ..... doz.	20 00
" 2.	Hypodermic Syringe, with Glass Barrel, protected by a Fenestrated Metal Cylinder, graduations on the piston rod, with Metal Cap on end to prevent drying-out of plunger, in Morocco Case, Spring Catch ..... doz.	24 00
" 3.	Hypodermic Syringe, with Glass Barrel, protected by a Metal Cylinder, open both sides, with graduations on piston rod, with finger-rests same as cut, and cap on end to prevent drying-out of plunger, in Morocco Case, Spring Catch ..... doz.	30 00
" 4.	Hypodermic Syringe, same as No. 3, in extra fine all Morocco Case, Spring Catch ..... doz.	32 00
" 5.	Same as No. 3, adapted for either Tablets or Liquids ..... "	32 00
" 6.	Same as No. 3, either for Liquids or Tablets, with 6 Vials ..... "	36 00
" 7.	*The Acme* Nickel Case, Spring Cover Syringe, with finger-rests ... "	36 00

Liberal discount to the trade.

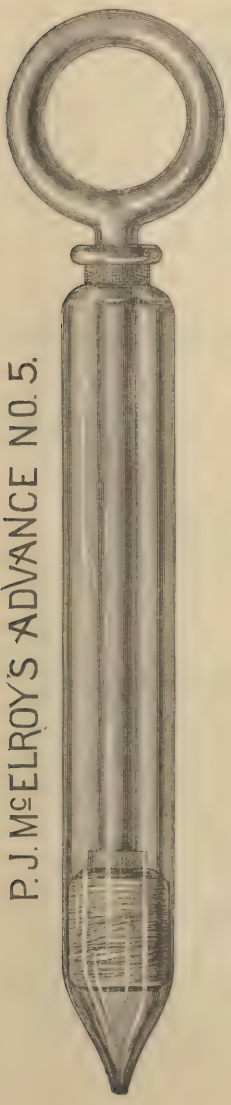

GLASS SYRINGES, McELROY'S PATENT.

Received the highest premium at the U. S. Centennial Exhibition. Acknowledged by all to be the best in the world. Heavy Glass, and smoothly made, with Rubber Washers, and without Cap or Cork.

SOLUBLE PILLS AND GRANULES,

UNEQUALLED FOR

PURITY IN COMPOSITION,

SOLUBILITY IN COATING, UNIFORMITY IN SIZE,

PERFECTION IN FORM AND FINISH.

HAVE RECEIVED THE FOLLOWING FIRST PRIZES:

1873.—Paris.—Silver Medal.—First Prize.

1879.—New York, American Institute.—Medal of Superiority.

1879.—Sydney.—First Award.—Bronze Medal.

1880.—Melbourne.—First Award.—Silver Medal.

1881.—Matanzas.—First Award.—Silver Medal.

1881.—London.—International Medical and Sanitary Exhibition.—Award of Merit.

1883.—Amsterdam, Holland International Exhibition.—Gold Medal.

1885.—New Orleans.—World's Industrial and Cotton Centennial Exposition.—Gold Medal.

Attention is respectfully called to the following latest additions to our list of

SOLUBLE PILLS AND GRANULES.

	Bottles of 100 Pills.	Bottles of 500 Pills.
Pil. Salol., 2½ grs.	$1 50	7 30
Pil. Salol., 5 grs	2 50	12 30

A New Remedy for Rheumatism and Rheumatic Affections. Possessing all the advantages of Salicylic Acid and Salicylate of Soda, while free from their objectionable effects.

We were the first to introduce this new and valuable remedy, several months since, to the medical profession, to whom we offer it in pill form in strengths of 2½ grs. and 5 grs. to each pill.

"Salol" or "Salicylate of Phenol" was first produced by Prof. Von Nencki, of Berne, and first brought to the attention of the medical profession in a communication by Dr. Sahli to the Medico-Pharmaceutical District Society of Berne, at its meeting held in that city on April 6th, 1886. An interesting article on the subject, by John Moss, F. I. C., F. C. S., will be found in the "Pharmaceutical Journal and Transactions" (British), October 2d, 1886.

Our pills of Salol have been submitted to the most eminent practitioners of New York and Brooklyn, for the purpose of determining their properties by practical tests; *and from all, without exception, who have had an opportunity of making a trial, we have had the assurance that its action has been successful and speedy, and free from the objectionable effects of the Salicylic Salts.* These physicians have tested it not only upon their patients, but upon themselves, and the prevailing opinion is that the best results are obtained from

DOSES of 5 grs. every hour at first, afterward the same quantity every other hour.

We have just published a Treatise on the therapeutic properties of Salol, in which is incorporated the notes of F. E. Georgi, M. D. Physician to the City Hospital Goerlitz (Silesia). This treatise will be mailed on application.

	Bottles of 100 Pills.	Bottels of 500 Pills.

PIL. MANGANESE BIN-OXIDE, 2 gr	80	3 80

(Emmenagogue and menstrual regulator.)

PIL. QUINIÆ FERRI ET ZINCI VALERIANAT. $1 45 $7 05

"EDITOR MEDICAL BRIEF, St. Louis, Mo.:

"The family doctor only knows how wide-spread Melancholia is in our country. The many household cares develop this disease in nervous women, who show its first symptoms in fretfulness and worry. I have sought for a remedy for years for this malady and have at last found it in the triple valerianates, which works like a charm.

{ Zinci Valerianat.....20 grs.
Quiniæ Valerianat .... 20 grs.
Ferri Valerianat.... .....20 grs. }

[M. ft. pil. No. 20. Sig.: One, three times a day.]

"The drugs must be absolutely pure. The old reliable house of W. H. Schieffelin & Co., of New York, have added the above pills (soluble) to their list, and I have tried them in many cases and find them a specific for the worry of nervous women, melancholia, and incipient insanity.

"Please try them and report. Your success will be sure."

S. A. DE FOE, M.D., Washington, N. J.

COCAINE

AND ITS PREPARATIONS.

But very few of the manufacturing chemists of this country have produced this article. We were early numbered among the very few, and our preparations have found their way into all parts of the country. The satisfactory results obtained have led to a large and increasing sale. The apparently ever-widening scope of Cocaine has led to constant improvement in the process of manufacture, until the prices at which it is offered are very low.

Cocaine Hydrochlorate (Muriate) Salt, 5, 10 and 15 grain vials,	per	grain,	$ .2½
" " " " 30 and 60 "	"	"	.2
" " " " 1 oz. vials (437½ grains),	"	ounce,	6.75
" " " Solution, 2%, 1 oz. vials...	"	"	.25
" " " " 2%, ⅛ " "	"	"	.40
" " " " 4%, 1 " "	"	"	.35
" " " " 4%, ⅛ " " ...	"	"	.50
" Alkaloid, 5, 10 and 15 grain vials.....	"	grain,	.2½
" Salicylate, 5, 10 and 15 " "	"	"	.2½
" Oleate (5% Alkaloid), 1 oz. "	"	ounce,	1.00
" " " " ⅛ " "	"	"	1.15
" Pills (1/20 gr. Muriate), bots. of 100 pills.....	"	bot.,	1.50*

* Subject to usual discount.

Special quotations for Cocaine (Muriate) in bulk.

IMPORTANT NOTE ON COCAINE.

Our Cocaine is in Small Crystalline form and is not amorphous. The advantage of this form over the hydrated silky crystals is obvious when it is understood that the latter form contains a large percentage of water of crystallization.

In order, therefore, to secure the full effect of a given quantity of Cocaine, the smaller Crystalline form should always be employed.

W. H. Schieffelin & Co.'s

WINE OF COCA

AN AGREEABLE AND EFFICIENT

TONIC AND STIMULANT,

PREPARED IN A SPECIAL MANNER TO SECURE THE FULL EFFECT OF THE PLANT.

Put up in 16 oz. bottles, $7.20 per dozen.

The highest authorities agree in according to the plant Erythroxylon, Coca, the following properties, viz.:

It braces and controls the enfeebled nervous system.

It surprisingly increases the muscular power and intellectual capacity.

It acts as a direct tonic upon the vocal chords, thus increasing the volume and clearness of the voice.

It overcomes the timidity of actors and public speakers, and imparts tone and vigor to the organism.

While it acts as a powerful food-replacing agent, it does not destroy, except temporarily, the natural appetite, and its use is said not to be followed by languor or depression.

It will be found of great service as a recuperative agent in convalescence from various wasting diseases.

This Wine is prepared from Coca leaves of the best quality and in such a manner as will most effectually secure the full effect of the Coca plant.

The quantity of alkaloid found in Coca Leaves varies considerably; therefore the use of a uniform quantity of leaves to a given product produces varying results. To obviate this, and to secure a UNIFORM ALKALOIDAL STRENGTH, all the leaves used in our Wine of Coca are assayed and the quantity used in each case is determined by the assay.

In prescribing this preparation, therefore, the physician may be assured of uniform action.

Dose:—From one to two tablespoonfuls, to be taken after meals. For children, a proportionate quantity.

For sale by all druggists.

W. H. Schieffelin & Co.'s

FLUID EXTRACTS.

PROCESS: COLD REPERCOLATION.

In accordance with the U. S. Pharmacopœia, we prepare all fluid extracts so that each cubic centimetre shall contain in solution all the soluble active constituents of one gramme of the powdered drug. Or, each minim represents 95-100 of a grain of the powdered drug. We employ the process of repercolation without heat, and, after several years' continuous experience, we believe that the resulting fluid extracts more perfectly represent the active constituents of the several drugs, as they exist in natural combinations, than is the case where heat is employed. The solvents used have been selected for each drug, after careful experimentation with a view to exclude inert substances as far as possible, and to retain in permanent solution the desirable active constituents.

Our line comprises upwards of 300 kinds.

ERGOT, net price, $1.35; BUCHU, 99 cents; CASCARA SAGRADA, $1.58; DANDELION, 90 cents; COCA, $1.35; GINGER, 90 cents; GENTIAN, 67 cents; LIQUORICE, 67 cents; SARSAPARILLA, 95 cents.

Special discount on lots of 25 lbs., assorted or otherwise, purchased at one time.

Send for our complete list of Extracts.

See Manufacturing Department, pages 122 *to* 127.

W. H. Schieffelin & Co.'s

POWDERED EXTRACTS.

These Extracts are deservedly popular because of their convenience for dispensing purposes. Owing to the hygroscopic nature of most vegetable extracts, it is necessary that *the bottles containing powdered extracts should be kept well corked.* In nearly every case these Powdered Extracts represent the solid extracts from the same drugs, weight for weight, and should be prescribed in the same doses. The extact strength of each powdered extract is noted on the label.

Powdered Extracts should be kept in small, well corked bottles in a cool place. If heated or exposed to the air they are likely to "cake," and require drying and repowdering.

For the above reasons *we put up these Powdered Extracts in* 1 *oz. bottles only;* but we can furnish larger quanties at lower rates to those wishing them for immediate use.

See Manufacturing Department, page 128.

WARBURG'S TINCTURE,

As Prepared by W. H. Schieffelin & Co.

We beg to call attention to the reduction in price of this article as given below.

There is so much testimony as to its extraordinary virtues in Malarial Fevers, that its powers can scarcely be questioned. At first a proprietary medicine, its formula was afterwards revealed by a voluntary act of its inventor, DR. CARL WARBURG, late of Vienna, but now of London. Our WARBURG'S TINCTURE is prepared in accordance with the original formula, except that Confection Theriac Ph. G. is substituted for Confection Damocratis—an unofficinal and impracticable preparation, some ingredients of which are nowhere obtainable.

In 1 lb. bottles, per lb., $2.50.	In ¼ lb. bottles. per lb., $2.75.
" ½ " " " 2.60.	" 1 oz. " " oz., 20

CONCENTRATED NITROUS ETHER,

FOR EXTEMPORANEOUS PREPARATION OF

SPIRIT NITROUS ETHER, U. S. P.

1 lb. bottles	$1.75	per lb.
½ " "	1.85	"
¼ " "	2.00	"

This preparation contains 90% *of real Ethyl Nitrite, and produces Spirit Nitrous Ether of the strength required by the U. S. P.*, 1880, *viz.*: "*At least* 4% *of real Ethyl Nitrite.*"

A HALF GALLON SWEET SPIRIT NITRE, U. S. P., is something you order very often of your wholesale druggist. Why not buy a four-ounce bottle of W. H. S. & Co.'s CONCENTRATED NITROUS ETHER, costing only 50 cents, which, by the addition of 4¾ pounds Alcohol, 95%, makes FIVE POUNDS SWEET SPIRIT NITRE, U. S. P.

Thus save cost of ½ gallon bottle, and risk and expense of shipment, and have the Spirit always fresh for use.

Put up in one-pound, half-pound, and quarter-pound bottles.

One lb., with 19 lbs. Alcohol, 95%, makes 20 lbs. Spirit Nitrous Ether.

WILLIAMS' PURE MENTHOL CRAYONS,

PREPARED BY

W. H. Schieffelin & Co., New York.

We beg to call the attention of the better class of pharmacists to these Crayons, which are pure Menthol, and are adapted to the relief of Nervous and Neuralgic Pains, etc. An examination by us of the various pencils or crayons on the market disclosed the fact that many of them were adulterated to a greater or less degree with Paraffin, Salicin, etc., and our customers have complained of the unsatisfactory character of such. This has induced us to offer

WILLIAMS' MENTHOL CRAYONS

as an article upon which entire reliance can be placed. If, therefore, you wish to give satisfaction to your customers, these crayons should find a place in your stock.

Put up in neat boxes of 1 doz. each for counter display. Price, per doz., $1.75.

W. H. Schieffelin & Co.'s

PURE FRUIT JUICES.

We call attention to our Pure Fruit Juices, which are simply the undiluted juices of the fruit or berry. Their flavor is incomparably superior to those which are artificially prepared, and are also free from the objectionable and dangerous chemicals which such contain. They retain the delicate flavor of the fresh fruit, and if tightly corked will keep perfectly in all climates.

OLEATES.

The demand for these preparations has steadily increased, owing to the fact that many physicians have found them more readily absorbed and more reliable as regards medicinal effects than are the ointments which they are partially superseding.

OLEATES ARE SUPERIOR TO ONTMENTS BECAUSE OF—*1st. Their deep penetration. 2d. Their freedom from rancidity. 3d. Their cleanliness of application. 4th. Their great economy. 5th. Their antiseptic action.*

We manufacture a full line of these goods of the best quality as per list below.

W. H. Schieffelin & Co.'s

SCALED SALTS OF IRON.

These elegant preparations have come into very general use, partly on account of their being more palatable than the salts made with mineral acids, partly because they were well adapted for combination with the valuable alkaloids, Quinine and Strychnine, and chiefly, we believe, because they have proven efficient remedies in many cases where other salts of iron have failed. For these reasons it is very important that these salts should be carefully made of proper, uniform and declared composition, and that the pharmacist and physician should have full knowledge of these facts. We give below brief notes which, we trust, may prove of interest:

FERRI CITRAS, U. S. P.

Bright, ruby-red scales, slowly, but completely soluble in cold water. Chiefly used in pills.

FERRI ET AMMONII CITRAS, U. S. P.

Bright, ruby-red scales, somewhat resembling those of the simple citrate. Very freely and quickly soluble in cold water, forming a clear, bright solution. Can not be used in coated pills, as the liberation of ammonia may cause them to burst. This Salt is one of those most in demand.

FERRI ET QUININÆ CITRAS, U. S. P.

Dark, ruby-red scales, slowly but completely soluble in cold water. This Scale contains 12 per cent. quinine alkaloid. Its chief use is in coated pills. It is not very much used in other prescriptions, owing to its slow solubility, although some physicians prefer it to the freely soluble Salt containing ammonia.

FERRI ET AMMONII ET QUININÆ CITRAS.

Light, yellowish-green, thin scales, very freely and quickly soluble in cold water. Although this Salt is not pharmacopœial, its sale is larger than that of any of the other scales containing quinine. Its ready solubility fits it for use in extemporaneous liquid prescriptions, while the presence of combined ammonia renders it unfit for use in coated pills.

Owing to the absence of any authoritative standard, the amount of quinine used by different makers varies from less than 4½ per cent. to 11.3 per cent., as we determined by actual assay of different English and American brands sold in this country. We also found that some brands which assayed high in one sample were deficient in others.

It seemed, therefore, that what was most needed was *a reasonable standard and no deviation.* Accordingly this Scale of our production is made to contain not less than 10 per cent. and not more than 10½ per cent. of quinine alkaloid. Every lot is assayed, and no variation from the above limits is allowed. *The physician can always depend on giving uniform doses of alkaloid if our scales are used.*

FERRI ET QUININÆ ET STRYCHNINÆ CITRAS.

Like the Soluble Citrate of Iron and Quinine, this Salt contains ammonia, and is not pharmacopœial. It sells, however, quite steadily. As prepared by us, it contains 10 per cent. of quinine alkaloid, and 1 per cent. of strychnine alkaloid. No lot is ever sold that is not proven by chemical assay to meet the above requirements.

This Salt resembles the Soluble Citrate of Iron and Quinine in color and free solubility, and is much used in elixirs.

FERRI ET STRYCHNINÆ CITRAS, U. S. P.

Color ruby-red, slowly soluble in water; contains 1 per cent. strychnine alkaloid; no ammonia. Best prescribed in pill or powder.

FERRI PHOSPHAS, U. S. P.

A new and desirable addition to the Pharmacopœia. Very freely soluble in cold water. Contains no ammonia, and is permanent if protected from the light.

The Scales resemble those of the pyrophosphate, being a trifle more yellowish in color. It is probable that this scaled preparation may in part replace the pyrophosphate. Best prescribed in solution with water, syrup, or elixir.

FERRI ET AMMONII TARTRAS, U. S. P.

The least satisfactory pharmacopœial scaled Salt. It is liable to vary considerably in composition and solubility.

FERRI ET POTASSII TARTRAS, U. S. P.

Unlike the tartrate of iron and ammonium, this Salt is quite permanent, soluble, and uniform. By many physicians it is considered the mildest and best chalybeate. It has little or no objectionable taste. Of late years it has not been as largely used as formerly, but we believe that it deserves a more prominent position.

SPECIAL QUOTATIONS GIVEN FOR LARGE LOTS.

W. H. Schieffelin & Co.'s
SULPHATE OF QUININE,

PUT UP IN 1 OZ. BOTTLES AND 5, 10, AND 20 OZ. CANS.

We guarantee that every ounce of SULPHATE OF QUININE sold under our brand shall be WELL BLEACHED, and shall meet the STRICTEST REQUIREMENTS OF THE U. S. PHARMACOPŒIA. Every lot is rigidly tested by methods prescribed by the Pharmacopœia, and none is allowed to leave our laboratory that does not come ully up to these standards.

W. H. Schieffelin & Co.'s

BISULPHATE OF QUININE,

PUT UP IN 1 OZ. BOTTLES AND 5, 10, AND 20 OZ. CANS.

This salt is rapidly gaining popularity among physicians, owing to its ready solubility, in ten parts of cold water, and its more prompt and efficient action in cases where the ordinary Sulphate of Quinine acts slowly or not at all.

We prepare the Bisulphate in fine, white crystals, convenient for dispensing. It is well adapted for use in Pills, Wafers, Elixirs, Syrups, Wines, and in most liquid mixtures. Its taste may be disguised by our Fluid Extract Licorice Compound, or better, by our scaled Ammoniacal Glycyrrhizin.

Dose, same as the Sulphate.

We sell this salt at the ruling price for Sulphate of Quinine.

Special Quotations for large lots.

NORWEGIAN COD-LIVER OIL.

THREE-FISH BRAND.

The largely increased consumption, within the past fifteen years, of NORWEGIAN COD-LIVER OIL in bulk, has led to the sale of inferior and adultetated oils imported from Hamburg, Rotterdam, and other places, and put up in style similar to the genuine NORWEGIAN OIL, so that purchasers now run the risk of having these inferior oils substituted for the genuine. It may be safely said buyers cannot be sure of getting the genuine article except by purchasing from reliable parties here who receive it direct from the place of manufacture.

We have given this article much attention for some years past, having been the FIRST here to import it largely direct from Norway, and we have arrangements for receiving regular supplies of a brand which our extensive experience in the article justifies us in *guaranteeing to be perfectly pure, and of a quality superior to any Norwegian Cod-Liver Oil imported in bulk.* Parties ordering will please specify the above brand, and may rest assured of receiving an article of uniform purity and freshness.

☞ All the genuine Oil of this make will bear the above brand, whether put up in original tin-lined barrels or in cans.

SALOL.

Dr. F. VON HEYDEN'S Successors at Radebeul-Dresden,

Manufacturers and Patentees for Germany and United States of America.

W. H. Schieffelin & Co., New York,

Sole Agents for United States and Canada for this Factory.

Registered Trade-Mark, "Salol."

This remedy, which we were the first to extensively introduce to the medical profession of the United States, is a compound of Phenol and Salicylic Acid.

Salol has attracted very great attention by reason of its value in the treatment of Rheumatism and Rheumatic affections, as well as other diseases. It possesses all the advantages of Salicylic Acid and Salicylate Soda, while not causing any of their objectionable effects.

To those who desire fuller information concerning the history, properties and uses of Salol, we would state that we have published "A Treatise on Salol," in which is incorporated the notes of F. E. GEORGI, M.D., Physician to the City Hospital, Goerlitz (Silesia). This Treatise will be mailed to anyone on application.

This valuable remedy is best administered in the pilular form. We prepare our Soluble Pills of Salol in strengths of 2½ grs. and 5 grs. to each pill.

We quote:

SALOL.

In 1 lb. bottles	$5.00 per lb.
In ½ lb. "	5.10 "
In ¼ lb. "	5.25 "
In 1 oz. "	.40 per oz.
In lots of 5 lbs	4.75 per lb.
In lots of 25 ounces, in 1 oz. bottles	.35 per oz.

Special quotations for large lots.

SALOL PILLS.

Pills subject to usual discount.

MÖLLER'S
PUREST NORWEGIAN

COD-LIVER OIL.

TRADE MARK.

It is now about eighteen years since we accepted the sole agency for North America for this article; we did so only after a very careful examination of the facts connected with its manufacture, as we had reason to believe that a large proportion of the Cod-Liver Oil which is sold is prepared in so careless a manner as to render it unfit for use.

Immediately upon its introduction into this country it took front rank as a pure and strictly reliable article, and we feel warranted in claiming it *to be, beyond any question, the best and most reliable Cod-Liver Oil in the world.*

In view, therefore, of what we know of the article itself, and of the numberless testimonials it has received, we can with confidence recommend it to physicians, druggists and consumers.

In AUSTRIA, the MEDAL "for MERIT," at the International Exhibition in VIENNA, 1873.
In AMERICA, the FIRST PRIZE at the great Centennial Exhibition in PHILADELPHIA, 1876.
In FRANCE, the ONLY GOLD MEDAL at the International Exhibition in PARIS, 1878.

The great reputation Möller's Cod-Liver Oil has now enjoyed for so many years, is solely due to its genuineness and the mode of preparation, originally devised and introduced by Peter Möller, which produces a natural Oil, without any refinement whatever, as sweet and pure as the finest Olive Oil.

It is in no sense of the word a REFINED article; it is genuine OL. MORRHUÆ, pure and fresh, as it existed in the hepatic cells of the living fish, and, therefore, endowed with that important quality which alone could constitute its proven superiority over all other varieties.

We desire to call special attention to the following points:

It is bottled at the place of manufacture.
It possesses a sweet and even agreeable taste.
Its administration always followed by satisfactory results.
It does not contain any products of decomposition.
More easily assimilated than other Oils.
More nutritious than other Oils.
Perfect Digestibility.
Perfect Limpidity.
Prepared exclusively from the fresh and healthy livers of the Lofoten Cod.
Purity, Delicacy of Taste and Smell.

W. H. Schieffelin & Co.

SOLE AGENTS FOR THE UNITED STATES AND CANADA.

LUCCA "CREAM" SALAD OIL.

This new article of commerce was introduced into the American market, from Tuscany, in the Spring of 1872, after a permanent arrangement had been entered into, through our friends, for its manufacture and bottling at Leghorn.

The sale of this Oil has been a success; it having met with the decided approbation of caterers, hotel proprietors, restaurant-keepers, and families, for the preparation of Salads, Dressings, etc.

From long experience in the sale of bottled Salad Oils, we are led to consider this article as of the very best character, and worthy of the attention of all parties requiring the very finest quality of *Pure Olive Salad Oil.*

This Oil is put up in bottles of four different sizes.

QUARTS,	in boxes containing	1	doz.	each,	.	$7.50	per	box.
PINTS,	" " "	2	"	"	.	8.50	"	"

VAPORIZER

AND

CRESOLENE

Trade-Mark
Registered Sept. 9,
1879.

The Only Specific for Whooping Cough.

The medical profession generally accept inhalation as the most effective plan for treating diseases of the throat and lungs. This method requires the use of a power-agent with which to charge the air. It is also requisite that the apparatus used should be simple and effective. An experience of seven years has demonstrated that Page's Vaporizer and Cresolene fulfil in a marked degree these two requisites.

The Vaporizer is a metal apparatus, six inches high, consisting of a reservoir for the liquid, a disc to deflect the direct rays of heat, and a small lamp.

Cresolene ($C_6H_5CH_3O$) is a coal tar product related to carbolic acid, but a more powerful germ destroyer. A large room is quickly permeated by Cresolene vapor, and its effect in Whooping Cough, Croup, Diphtheria, Scarlet Fever, and other zymotic diseases, is promptly observed. It acts not only as a curative, but also as a preventive. Carpets, furniture, bed-clothing, curtains, wall paper, indeed the whole interior of a sick room or other apartment can be thoroughly disinfected. The apparatus requires no attention, the lamp furnishing sufficient heat to vaporize a reservoir of Cresolene in eight hours. It is thus not only more effective than "Atomizers," but less inconvenient. It is the best medium for perfuming sick-rooms. The following are extracts from letters:

F. P. Kaiser, St. Louis, Mo.: "I trust this great remedy may soon become generally known for the benefit of the 'little ones.'"

S. H. Murphy, M.D., Glendale, N. Y.: "I have used the Vaporizer and Cresolene in six cases of Whooping Cough of long standing, with marked relief within 24 hours, and entire cure in from three to five days; have also used it in Nasal Catarrh, Bronchitis, Pharangitis, Catarrhal and Diptheritic, with great benefit. I think it of great value in Diphtheria."

A. E. Angier, Columbus, O.: "Cresolene is a specific in Whooping Cough, and beneficial in Hay Fever and Catarrh."

Walter Wilkinson, Superintendent Gorham Silver Manufacturing Co., Providence, R. I.: "I have broken up Diphtheria a number of times by using Cresolene as soon as the symptoms were evident. One of our men had suffered a great deal from Catarrh; he obtained relief by using Cresolene."

William C. Johnson, Chatham, N. J.: "My horse was seriously ill with the epizootic. After two days' use of your Vaporizer and Cresolene, he was entirely cured."

C. M. K. Smith, U. S. Express Co., New York: "I have used one of your Cresolene Vaporizers for a year past, and found it an invaluable relief to Catarrh, from which my two children have suffered."

John Mulville, 150 Broadway, New York: "My five children were sick with malignant Whooping Cough. The youngest child is under five months old. The Vaporizer and Cresolene afforded not only relief, but effected a permanent and speedy cure."

J. F. Mansfield, Supt. Providence Tool Co., Providence, R. I.: "For four years my wife was suffering from Catarrh or throat disease. After using two bottles of Cresolene she was permanently cured."

A. L. Libby, of H. J. Libby & Co., New York: "I can add my testimony to the efficiency of your Vaporizer and Cresolene in cases of Croup and Acute Bronchitis in my family. I have also known of its remarkable influence in curing several cases of Whooping Cough in the families of my neighbors."

Rev. Henry Martin Grant, Middleboro, Mass.: "My son recovered from an attack of Scarlet Fever in three weeks. We kept the Cresolene in use day and night. It acted as a disinfectant, curative and preventative. Our physician was very much pleased with its results."

Whooping Cough in London: During the first four months of 1884 more than 2,000 children died from Whooping Cough.

A man took his children, who were suffering from Whooping Cough, to a boarding house. A number of the boarders left the house to escape the contagion, and the children of the landlady contracted the disease. The landlady thereupon sued for damages and recovered, the Court holding that taking children from place to place under such circumstances was negligence, and entitled the sufferers to sue.

A. L. Holden, M.D., Utica, N. Y.: "It is excellent in Whooping Cough."

Anthony Comstock, New York Society for the Suppression of Vice: "Malignant Diphtheria in my home; Vaporizer and Cresolene used; cases recovered in two weeks; no others were affected. The physician in charge used the Vaporizer and Cresolene for another patient with like results. Children with Whooping Cough and persons with severe cold and bronchial troubles speedily recover after the use of Cresolene."

E. S. Kenyon & Co., druggists, St. Paul, Minn.: "So far the second case of Diphtheria has not developed where the Vaporizer and Cresolene have been used."

H. R. Putnan, with Bliss, Fabyan & Co.: "I am using the Cresolene for an infant who has Whooping Cough, and the results are most satisfactory."

Erastus H. Doolittle, of Smith, Doolittle & Smith, druggists, Boston: "A lady brought two children to Cottage Park, Winthrop, who had Whooping Cough, and as a result every child but two, and one adult, took it. Incessant coughing at night, the parents in some cases being obliged to attend constantly upon them all night. I procured several Vaporizers and distributed them. Most of the children slept through the entire night. The effect seemed to be almost instantaneous. Relief was given in all cases."

George Elder, M.D., Nottingham, England, Surgeon to Hospital for Women: "In the case of my own family and that of others, I have found nothing so useful in cutting short Whooping Cough as Page's Vaporizer and Cresolene."

J. W. Pinkham, M.D., Montclair, N. J.: "I have found Cresolene of great service in Whooping Cough, having used it in many cases. It also gives relief in Asthma. I am fully persuaded of its anti-spasmodic virtue."

J. D. Parish, M.D., Burlington, N. J.: "At a full meeting of our County Medical Society I had the pleasure of offering for inspection one of your Vaporizers and Cresolene and explain my satisfactory experience in using it with cases of Scarlet Fever and Whooping Cough."

Mrs. Barlow, Wyvenhoe, Worthing, England: "We are extremely glad and thankful that our children are much better. The Cresolene has been immensely helpful, as the children have been spared the prolonged suffering which appears generally to accompany Whooping Cough. I have recommended it to several of my friends."

Miss Emma Thursby, 34 Gramercy Park, New York: "It is invaluable, and so pleasant to have in the sick chamber. My sister could not do without it. We all seem to derive much benefit from it. I should like to have another one for my own room, as I fancy it would relieve my cough."

John F. Davis, S. S. White Dental Manufacturing Company, Boston: "When my children were taken with the Whooping Cough I began the use of Cresolene at once, and consider it a great blessing."

"OFFICE OF M. EHRET, JR. & CO., 423 Walnut St.,
PHILADELPHIA, PA., June 6, 1886.

Dear Sir:—I have used your Vaporizer and Cresolene in a case of Whooping Cough. My child was very seriously ill and obtained relief after three nights' use. An entire cure was effected in ten days. Yours truly,

GEO. W. ELKINS."

"EPISCOPAL CHURCH HOME, Pennsylvania Ave., cor. 40th Street,
PITTSBURGH, PA., June 22, 1886.

Geo. Shepard Page, Esq.—Dear Sir:—I have received the box with Vaporizer and two bottles of Cresolene. It was used immediately, and found to be very good. Truly yours, MRS. E. B. LOOMIS."

"DANVILLE, KY., Dec. 3, 1886.

Dear Sir:—At my suggestion the State Deaf and Dumb Institute (a very large institution located in this city) has very successfully tested the Vaporizer and Cresolene, and it will hereafter be adopted for use in the Institution. It has also given relief and restoration of marked character in families, including my own. Congratulating you on possessing so superior a remedy for the relief of the suffering, I am, truly yours, REV. E. H. PEARCE, Pastor M. E. Church."

"FAIRFIELD, IOWA, Jan. 31, 1887.

I have used the Vaporizer, and am well pleased with it, and expect to get good results from it in the future. D. H. WORTHINGTON, M.D."

"THE MORRIS COUNTY CHILDREN'S HOME,
PERSIPPANY, N. J., Feb. 21, 1887.

Mr. Geo. Shepard Page.—Dear Sir:—The Vaporizer and Cresolene were received in good order. We found it very beneficial in its results. We had about forty cases of Whooping Cough; the worst ones we put in one room and used the Vaporizer, very much to our comfort as well as the children's. There are only two or three who cough at all now. Thanking you very kindly for your thoughtfulness, I am, Very truly yours,

MRS. S. G. SMITH, Matron."

"COURTLAND, N. Y. Feb. 22, 1887.

Mr. Geo. Shepard Page.—Dear Sir:—Last Fall our baby, three months old, had Whooping Cough very severely. Hearing of your Vaporizer and Cresolene, we thought we would try it. Much to our delight, it worked wonders when used in the sick room at night. The second night the cough was much better. After a few nights the terrible spasms in the throat ceased and great relief was afforded. We recommended it to a lady whose child suffered much from Asthma. The child is now entirely cured. The Vaporizer has also been much used for Croup. It is a wonderful invention. Truly yours,

MRS. J. D. SHERWOOD."

SWAIM'S PANACEA,

FOR THE CURE OF SCROFULA, OR KING'S EVIL,

RHEUMATISM, ULCEROUS SORES,

White Swellings, Diseases of the Liver and Skin, General Debility, etc.,

AND ALL DISEASES ARISING FROM

IMPURITY OF THE BLOOD.

THIS medicine has the singular fortune—a just tribute to its great merit—of being recommended by the most celebrated practitioners of Medicine in the United States and Europe ; whereas, not one of the spurious mixtures made in imitation of it has the least support from the Medical Faculty. This fact offers an argument so plain and conclusive that it need only be mentioned to enforce conviction.

FROM DR. SAMUEL R. MARSHALL,

Surgeon of the United States Naval Hospital, New York, etc.

I have used MR. SWAIM'S PANACEA in several cases of secondary syphilis and mercurial disease, which were sent to the Naval Hospital at Brooklyn, and feel pleased to say, with complete success in every case. SAMUEL R. MARSHALL, M.D.

FROM DR. VALENTINE MOTT,

Professor of Surgery in the University of New York, Surgeon of the New York Hospital, etc.

I have repeatedly used SWAIM'S PANACEA, both in the hospital and in private practice, and have always found it to be a valuable medicine in chronic syphilitic and scrofulous complaints, and in obstinate cutaneous affections. VALENTINE MOTT, M.D.

FROM DR. W. GIBSON,

Professor of Surgery in the University of Pennsylvania, Surgeon and Clinical Lecturer in the Almshouse Infirmary, etc.

I have employed the PANACEA of MR. SWAIM in numerous instances within the last three years, and have always found it extremely efficacious, especially in secondary syphilis, and in mercurial disease. I have no hesitation in pronouncing it a medicine of inestimable value. W. GIBSON, M.D.

FROM DR. N. CHAPMAN,

Professor of the Institute and Practice of Physic and Clinical Practice in the University of Pennsylvania, President of the Academy of Medicine of Philadelphia, etc.

I have, within the last two years, had an opportunity of seeing several cases of very inveterate ulcers, which, having resisted previously the regular modes of treatment, were healed by the use of MR. SWAIM'S PANACEA ; and I do believe, from what I have seen, that it will prove an important remedy in scrofulous, venereal, and mercurial diseases. N. CHAPMAN, M.D.

FROM DR. WILLIAM P. DEWEES,

Professor of Midwifery in the University of Pennsylvania, Member of the American Philosophical Society, and of the Philadelphia Medical Society, etc.

I have much pleasure in saying I have witnessed the most decided and happy effects, in several instances of inveterate disease, from MR. SWAIM'S PANACEA, where other remedies have failed ; one was that of Mrs. Brown. WM. P. DEWEES, M.D.

GARDNER'S CHEMICALLY PURE HYPOPHOSPHITE PREPARATIONS.

THESE preparations contain *Chemically Pure Salts* in a *neutral condition.*

No single combination of Hypophosphites being adapted to the varying requirements of disease, each salt is represented in a *preparation by itself, so that the particular salt indicated* can be used in *proportions to suit the case treated.*

The importance of this arrangement is apparent when it is considered that in Phthisis, for instance, the best authorities agree that the *Soda* and the *Lime* salt are each *separately indicated* in different stages of the disease; the *Soda* being adapted to the treatment of the *primary stage*, while the *Lime* is indicated in the *second and third stages only;* the Potassa salt, because of its disintegrating effect upon fatty tissue, and more particularly upon *tubercular deposit—causing cavities* by sloughing—is *contraindicated in any stage* where this condition exists. This is in accord with the matured views of the best authorities, based upon long and watchful clinical experience in hospital practice. The Hypophosphite of Quinia is valuable in certain conditions of Phthisis, either to combat malarial complications, to assist in arresting night sweats, or to aid, by its tonic action, the excessive debility caused by the disease.

Dr. Churchill does not prescribe the Hypophosphites of Lime and Soda combined, but uses the Soda or Lime salt separately as indicated, and wherever indications point to the use of both he alternates, giving first one, and then the other, according to the physiogenic or pathogenic effects produced.

The combination of Lime, Soda, Iron and Potassa is very valuable as a general and nervous tonic, when no phthisical complications exist.

Hypophosphite of Iron is not frequently indicated in Phthisis, but is recommended to be given when required, by itself, in lieu of the dose of either the Soda or the Lime salt; this salt is particularly useful in Dysmenorrhœa, Anæmia, and Chlorosis.

The experience of the past eleven years in the use of these preparations of chemically pure Hypophosphites by the medical profession, has fully vindicated the statement made by the writer in 1874, when they were first introduced, and at that time strongly urged upon their critical attention, viz.: That "unless the physician has used *Chemically Pure Hypophosphites*, he has not properly tested their effects." The marked superiority of pure over impure salts in therapeutic effects has been recognized and appreciated by the medical profession, and, as usual, preparations purporting to be similar, have been extensively advertised. These are generally compounds, in the use of which the Physician is left no discretion of judgment in the selection of the salts best adapted to the conditon of his patient.

For the information of those of the Medical Profession who are unacquainted with these preparations, the subscriber would state that they are put up in a strictly legitimate manner, in thirteen fluid ounce, round bottles only, the label giving the name and exact proportion of the salt or salts represented. They are *advertised solely and only to the medical profession.*

Prepared by ROBERT W. GARDNER,

Pharmaceutical Chemist, New York.

W. H. Schieffelin & Co., New York, Sole Wholesale Agents.

NON-IRRITANT IODINE

FOR INTERNAL USE.

A Valuable Improvement in Pharmacy: Gardner's Unalterable Syrup of Hydriodic Acid.

In this preparation the **Hydriodic Acid is perfectly protected against decomposition,** and is therefore always available for medical use—**a result never before attained.**

Hydriodic Acid was formerly officinal, but always decomposed within a few hours after its preparation, and was therefore rarely, if ever, **in a fit condition for internal administration.**

The decomposition is caused by the disengagement of Hydrogen; this sets free its equivalent of Iodine, which colors the **remaining Acid red,** and renders it too **irritant** for internal medication.

Simple mixtures of Hydriodic Acid and Syrup do not keep.

When not decomposed, Hydriodic Acid is of a light-yellowish color, is perfectly non-irritant, gratefully acid to the taste, and rendered still more acceptable if combined, as in this preparation, with sugar.

In chemical composition it consists of one equivalent each of Iodine and Hydrogen—(HI). As the equivalent of Iodine is 127, and that of Hydrogen 1, it follows that the proportion of Hydrogen present as compared to Iodine is less than one per cent (78-100 of 1 per cent). The Acid is therefore **nearly pure Iodine.**

It affords the most natural and effective means of assimilating Iodine, as the Hydrogen with which it is combined is one of the **largest elementary constituents of the body.** The combination renders Iodine more assimilable, therefore, because in **physiological harmony,** while it is medicinally more **active,** and deprived of its objectionable irritant properties, and changed from a most disagreeable to one of the pleasantest of remedies.

This Syrup has been remarkably useful in **Asthma, Chronic Bronchitis,** and **Hay Fever.** (See papers by J. P. Oliver, M.D., Boston. *Med. and Surg. Journal,* March 4, 1880, and by W. Gill Wylie, M.D., New York, *Medical Record,* May 10, 1879.) While it has been found specially useful in these diseases, it is applicable to all that large class of affections where the assimilation of Iodine is indicated, as in chronic and subacute catarrhal affections, Goitre (also in Tumors, Syphilis, etc., also in chronic Malarial Poisoning, and particularly in Asthma, Adipose Tumors, Acute Rheumatism, etc.) See *N. Y. Med. Record,* April 21, 1883, p. 448.

Its effect upon mucous surfaces is more marked than with other forms of Iodine, while it is effective in smaller relative proportions.

It is as palatable as Lemon Syrup.

It is so free from irritant action that it may be given to the youngest infant.

Its efficacy in Syphilis has been demonstrated.

One fluid ounce of this syrup contains 6.66 grains of Iodine converted into Hydriodic Acid. Its action will be found more efficient in equivalent doses than Iodide Potassium, while it produces none of the unpleasant effects of the latter, such as loss of appetite, soreness in the fauces, nausea, etc. Physicians who use Iodide Potassium largely will appreciate this.

The **Dose** of this Syrup is from one to three teaspoonfuls in twice the bulk of water, three or four times a day.

Prepared by ROBERT W. GARDNER, Pharmaceutical Chemist.

158 William Street, New York.

W. H. Schieffelin & Co., New York, Sole Wholesale Agents.

FOR SALE BY PHARMACEUTISTS GENERALLY.

NOTE.—Physicians desiring to prescribe this preparation will please specify "Gardner's," as imitations of it have been used in a decomposed state with serious results, disappointing the anticipations of the physicians and creating undeserved prejudice against this remedy.

W. H. Schieffelin & Co.

ARE SOLE PROPRIETORS OF

ANDERSON'S RHEUMATIC BALSAM.

This article has been in use for the last thirty years, and has proved a most efficacious remedy for the single disease for which it is particularly designed. The ingredients which enter into its composition are in themselves potent, but when combined, as in this Balsam, they seem doubly valuable for their anti-rheumatic power.

It is not necessary to enter into any discussion as to what Rheumatism is, or by what it is occasioned. Every one who has felt a twinge of it knows more about what it is than the most learned thesis can enable him to understand, either as to its insidiousness or its painfulness. The sufferer desires relief, and this he may find in the use of this Balsam, which is worthy of a place in every medicine-chest, either in the family or on shipboard.

The general directions for its use may be found on the label upon each bottle. Of course these may be modified—as far as the dose is concerned—to conform to the age of the patient and the severity of the attack.

CARBOLIZED ANTI-MOTH PAPER.

ABSOLUTE PROTECTION AGAINST

MOTHS, MILDEW AND INFECTION.

CHEAP, CLEAN, FRAGRANT, HEALTHFUL.

Every Sheet of the Genuine Paper has this Trade-Mark.

Every Sheet of the Genuine Paper has this Trade-Mark.

TRADE MARK.

The idea of treating paper with Carbolic Acid for protecting clothing, blankets, furs, etc., from moths and mildew, was first put in practice by the Quartermaster's Department of the U. S. Army, and a paper prepared by Capt. John F. Rogers was found to be not only proof against Moths and Mildew, but also an effective barrier against contagion, which is so often conveyed in woollens. Its adoption by the Quartermaster's Department has resulted *in the complete protection of one hundred and fifty million dollars' worth of property*, besides the saving of large sums hitherto expended for camphor, pepper, tobacco and other ineffectual preventives.

An inquiry was instituted in July, 1879, by Major-General M. C. Meigs, Quartermaster-General of the United States Army, as to the real merits of this paper. Extracts from reports of army officers are appended.

OFFICE ARMY CLOTHING AND EQUIPAGE,
SAN FRANCISCO, CAL., Aug. 20, 1879.

The paper has been in use in the Qr. Mr. Dep't for twelve years. I am satisfied that this paper affords the best protection against moths of anything that has been brought to the attention of the Department. In addition to this I have noticed that woolen clothing presents, upon opening, a fresh appearance, as though it had derived benefit from the antiseptic qualities of the Carbolic Acid.

GUSTAVUS A. HULL,
Capt. and M. S. K., U. S. A.

PHILADELPHIA DEPOT OF THE QR. MR.'S DEP'T.
PHILADELPHIA, August 4, 1879.

I have never opened a package that was properly packed with this paper and found any damage by moths, or trace of them whatever.

JOHN LIVERS,
Capt. and M. S. K., U. S. Army.

OFFICE DEPOT QUARTERMASTER, DAVID'S ISLAND.
NEW YORK HARBOR, August 12, 1879.

In my opinion the paper is of great value in protecting articles of woolen clothing.

JOHN SIMPSON,
Capt. and Ass't Qr. Mr. U. S. Army.

QUARTERMASTER GENERAL'S OFFICE,
WASHINGTON, D. C., August 11, 1879.

In my opinion, the paper affords a complete protection.

STEWART VAN VLIET,
Ass't Qr. Mr. Gen., U. S. A.

DEPOT QR. MR.'S OFFICE, WASHINGTON, D. C.
August, 7, 1879.

I consider it an efficient and valuable article in the protection and preservation of woolen clothing from ravages of the moth.

A. F. ROCKWELL,
Depot Quartermaster.

The pure Carbolic Acid used is not only FRAGRANT, but HEALTHFUL. This Carbolized Paper is perfectly clean—the very best disinfectant known—and will not injure the finest fabrics. It is less expensive than Camphor, Pepper or Tobacco. The odor passes away from garments on exposure as rapidly as does that of camphor. It is put up in small packages suitable for domestic use, and can be obtained from wholesale and retail druggists. Each package is securely inclosed in a wrapper of Paraffine paper, which prevents evaporation of the Carbolic Acid until it is required for use.

Put up in quires of 25 sheets, 6 x 9½ inches wide, at 25 cents; and in reams of 20 quires at $2.75 per ream. By case of 50 reams, $2.50 per ream.

They are put up in Cylindrical Tubes, convenient for carrying in Hypodermic or Pocket Case, ten tubes in a box, with twenty tablets in each tube.

NOTE.—It will only be necessary, in ordering, to specify the Numbers as above.

These Tablets will be sent by mail, on receipt of the proper amount.

ALL OF WYETH'S GOODS IN STOCK AND FOR SALE BY

W. H. Schieffelin & Co., New York.

RAWSON'S U. S. ARMY

PATENT ELASTIC SELF-ADJUSTING

SUSPENSORY BANDAGE.

A Marvel of Support, Relief, Comfort and Durability.

Fig. 1.

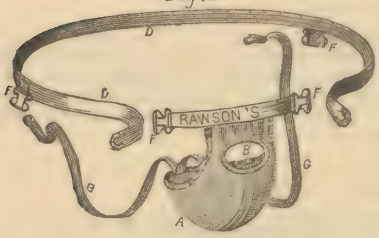

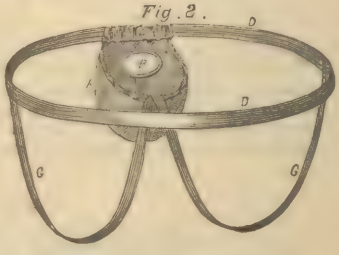

Fig. 2.

It is recommended by the most noted Surgeons and Physicians in the United States.
The individual wearing it will not be conscious of its presence.
It cannot become displaced, no matter what position the body may assume.
A Perfect Fit Warranted (free from restraint), **for any Size or Condition.**

DESCRIPTION AND PRICE LIST.

The different numbers are made regularly in three sizes, Large (L), Medium (M), Small (S), and specially in any desired size and shape, and are trimmed and finished with silk.

" 3.—Superfine Elastic Waistband and Buttock Straps, with 2 adjusting buckles at abdomen. Extra quality French Bags	2 50	14 00
" 4.—Superfine Elastic Waistband and Buttock Straps, with 2 adjusting buckles at abdomen, and 2 Buttock Strap adjusting buckles. Extra quality French Bags	3 00	15 00
" 5.—Silk Bag—Superfine Elastic Waistband and Buttock Straps, with 2 adjusting buckles at abdomen, and 2 Buttock Strap adjusting buckles. Bags of fine English silk netting in white or flesh color	3 50	18 00
" 6.—All Silk—Superfine Silk Elastic Waistband and Buttock Straps, with 2 adjusting buckles at abdomen, and 2 Buttock Strap adjusting buckles. Bags of fine English or French Silk netting in white or flesh color	5 00	27 00

IMPORTANT TO THE TRADE.

Dealers will confer a favor by returning to us any of Rawson's U. S. Army Suspensory Bandages in which the elastic has deteriorated or the Bandage has in any way become imperfect *while in stock*, and we will replace them with new goods. We make this request as it is our aim to keep only first-class goods, perfect and superior in every particular, on the market of our manufacture.

S. E. G. RAWSON.

CAUTION.—Be sure that "Rawson's Patent Elastic Self-Adjusting U. S. Army Suspensory Bandage," together with the *No. and Size* of the Bandage are printed on the waistband; also on the label of the box which contains it.

For Sale by all the Leading Wholesale Drug and Surgical Instrument Houses in the U. S.
Orders received and promptly executed by the Patentee and Sole Manufacturer.

S. E. G. RAWSON, Saratoga Springs, N. Y.
